Two Victorian ghosts trapped for eternity. And a seventeen-year-old girl determined not to be next. Eulalie Island should be a paradise, but to Addie Spencer, it's more like a prison. Forced to tag along to the remote island on her mother's honeymoon.

Addie isn't thrilled about being trapped there for two weeks. The island is stunning with its secluded beaches and forests full of white flowers. But there's something eerie and unsettling about the place. After Addie meets an enigmatic boy on the beach, all the flowers start turning pink. The island loves you, he tells her. But she can't stop sleepwalking at night; the birds keep calling her name, and there's a strange little girl in the woods who wants to play hide and seek. When Addie learns about two sisters who died on the island centuries ago, she wonders if there's more to this place than she can see. Beneath its gorgeous surface, Eulalie Island is hiding dark, tangled secrets. And if Addie doesn't unravel them soon, the island might never let her go.

An Outline of Laboratory Work in Vertebrate Embryology Frederick Clayton Waite, 1919. *Computational Visualization* Thomas Strothotte, 2012-12-06. A unified and coherent introduction to the notion of abstraction in interactive computer graphics is provided by this book. Abstraction entails refinement of images based on geometric models so as to reflect the importance of the features of the model for the dialog context and the visualization goal. This may require leaving out irrelevant details or accentuating significant features by adding details or enlarging or deforming parts. Such modifications are routine by hand but are at the leading edge of research in 2D and 3D computer graphics. The authors see the abstraction process as an interactive exploration of complex information spaces and report especially on zooming and rendering techniques. Benefits are discussed for applications in medical illustration and technical documentation.

Descriptive Catalogue of Slides and Films, 1956. **Ark of War** Charles E. Feldmann, 2012-12-10. WHILE DEFENDING THE ACCUSED IN A MILITARY COURTMARTIAL, NEW YORK CITY'S RENOWNED DEFENSE ATTORNEY SOLOMON GOLDMAN finds himself drugged and abducted in broad daylight, only to awaken inside a nuclear submarine on its way to the Middle East. His captor, a beautiful and mysterious Egyptian agent named Eteye Azeb, tells Goldman that his brother is commanding a secret military operation south of Baghdad at the lost city of Babylon, where an uncovered religious scroll, obscurely mentioned in the Bible, contains an ancient Egyptian code. This code leads to the hidden location of the most sought-after treasure of antiquity: the Ark of the Covenant. Goldman's brother has now mysteriously gone missing with the scroll and is wanted for theft and treason. The Middle East is pushed to the brink when Iranian commandos recover abandoned American nuclear torpedoes from the ocean's floor. The stakes are raised even further when Goldman is caught up in an international conspiracy to recover and use the sacred Ark of the Covenant as a modern-day military weapon. For reasons Solomon Goldman doesn't yet understand, all eyes are on him as he tries to pick up the trail of his missing brother and locate the clues to the missing treasure map. In a breathless race over four continents, Goldman must follow the signs hidden away for millennia that lead to the Ark, all while struggling with his own religious

doubts and unbeliefs At every turn fate seems to draw him deeper into Eteyes cryptic world of unexplained past connections Who really is this woman Unless he can decipher the biblical secrets and find the ancient Ark before the world's superpowers do the Ark of War may be lost forever or worse yet used as a modern day weapon of mass destruction
