Learn Malayalam in 30 Days Through English Krishna

Gopal Vikal,2022-04-21 The greatest sensation of life is to learn a language. One has to closely watch a child going through this experience to be convinced of this. Every time he learns a new word or construction from mother, father, or other relatives, his heart is filled with wonder, excitement, thrill, and creative urge, and he toys with its various forms and tones, bringing into play all the creative forces within him. To learn a new language is to re-enter this wonderful experience of life, opening infinite opportunities for creative action. Besides, in a fast-expanding world transcending all barriers of colour, caste, religion, and language, a new language is an essential tool of life. The book primarily attempts to introduce those whose mother tongue is not Malayalam to learning of Malayalam by the most natural and the simplest method. It adopts the scientific approach, introducing alphabets, words, sentences in that order, and application of these in the most common situations of daily life. Situational sentences and conversational sentences selected for the book reflect the maximum possible commonness of Indian languages and Indian culture. The purpose is that the learner during the process of learning should be sufficiently equipped to converse and transact with a very vast section of Malayalam-speaking people throughout India and abroad.
