LEGOified Nicholas Taylor, Chris Ingraham, 2020-02-20 LEGOified Building Blocks as Media provides a multi faceted exploration of LEGO fandom addressing a blindspot in current accounts of LEGO and an emerging area of interest to media scholars namely the role of hobbyist enthusiasts and content producers in LEGO s emergence as a ubiquitous transmedia franchise This book examines a range of LEGO hobbyism and their attendant forms of mediated self expression and identity their technicities artists aspiring Master Builders collectors and entrepreneurs who refashion LEGO bricks into new

commodities sets tchotchkes and minifigures The practices and perspectives that constitute this diverse scene lie at the intersection of multiple transformations in contemporary culture including the shifting relationships between culture industries and the audiences that form their most ardent consumer base but also the emerging forms of entrepreneurialism professionalization and globalization that characterize the burgeoning DIY movement What makes this a compelling project for media scholars is its multi dimensional articulation of how LEGO functions not just as a toy cultural icon or as transmedia franchise but as a media platform LEGOified is centered around their shared experiences qualitative observations and semi structured interviews at a number of LEGO hobbyist conventions Working outwards from these conventions each chapter engages additional modes of inquiry media archaeology aesthetics posthumanist philosophy feminist media studies and science and technology studies to explore the origins permutations and implications of different aspects of the contemporary LEGO fandom scene

LEGO Studies Mark Wolf, 2014-11-13 Since the Automatic Binding Bricks that LEGO produced in 1949 and the LEGO System of Play that began with the release of Town Plan No 1

1955 LEGO bricks have gone on to become a global phenomenon and the favorite building toy of children as well as many an AFOL Adult Fan of LEGO. LEGO has also become a medium into which a wide number of media franchises including Star Wars, Harry Potter, Pirates of the Caribbean, Batman, Superman, Lord of the Rings, and others have adapted their characters, vehicles, props, and settings. The LEGO Group itself has become a multimedia empire including LEGO books, movies, television shows, video games, board games, comic books, theme parks, magazines, and even MMORPGs.

LEGO Studies: Examining the Building Blocks of a Transmedial Phenomenon is the first collection to examine LEGO as both a medium into which other franchises can be adapted and a transmedial franchise of its own. Although each essay looks at a particular aspect of the LEGO phenomenon, topics such as adaptation, representation, paratexts, franchises, and interactivity intersect throughout these essays, proposing that the study of LEGO as a medium and a media empire is a rich vein barely touched upon in Media Studies.

Deconstructing LEGO Jonathan Rey Lee, 2020-09-08. This book investigates a paradox of creative yet scripted play: how LEGO invites players to build freely with and within its highly structured, ideologically laden toy system. First, this book considers theories and methods for deconstructing LEGO as a medium of bricolage—the creative reassembly of already significant elements. Then, it pieces together readings of numerous LEGO sets, advertisements, videogames, films, and other media that show how LEGO constructs five ideologies of play: construction play, dramatic play, digital play, transmedia play, and attachment play. From suburban traffic patterns to architectural croissants, from feminized mini-doll bodies to toys to life stories, from virtual construction to playful fan creations, this book explores how the LEGO medium conveys ideological messages not by transmitting clear statements but by providing implicit instructions for how to reassemble meanings it had all along.

Nostalgic Generations and Media Ryan Lizardi, 2017-05-31. *Nostalgic Generations and Media: Perception of Time and Available Meaning* argues that the cultural rise in nostalgic media has the multi-generational impact of making the subjective experience of time speed up for those who are nostalgic as well as create a surrogate nostalgic identity for younger generations by continually feeding them the content of their elders. This book is recommended for scholars interested in communication media studies and memory nostalgia studies.

The Dolphin Way Shimi Kang, 2014-05-01. In this inspiring book, Harvard-trained child and adult psychiatrist and expert in human motivation, Dr. Shimi Kang provides a guide to the art and science of inspiring children to develop their own internal drive and a lifelong love of learning. Drawing on the latest neuroscience and behavioral research, Dr. Kang shows why pushy tiger parents and permissive jellyfish parents actually hinder self-motivation. She proposes a powerful new parenting model: the intelligent, joyful, playful, highly social dolphin. Dolphin parents focus on maintaining balance in their children's lives to gently yet authoritatively guide them toward lasting health, happiness, and success. As the medical director for Child and Youth Mental Health community programs in Vancouver, British Columbia, Dr. Kang has witnessed firsthand the consequences of parental pressure, anxiety disorders, high stress levels, suicides, and addictions. As the mother of three children and as the daughter of immigrant parents who struggled

to give their children the best in life Dr Kang's mother could not read and her father taught her math while they drove around in his taxicab Dr Kang argues that often the simplest benefits we give our children are the most valuable By trusting our deepest intuitions about what is best for our kids we will in turn allow them to develop key dolphin traits to enable them to thrive in an increasingly complex world adaptability community mindedness creativity and critical thinking Life is a journey through ever changing waters and dolphin parents know that the most valuable help we can give our children is to assist them in developing their own inner compass Combining irrefutable science with unforgettable real life stories The Dolphin Way walks readers through Dr Kang's four part method for cultivating self motivation The book makes a powerful case that we are not forced to choose between being permissive or controlling The third option the option that will prepare our kids for success in a future that will require adaptability is the dolphin way
