**Cancer on Trial** Peter Keating,Alberto Cambrosio,2014-04-18 There were no medical oncologists until a few decades ago In the early 1960s not only were there no such specialists many practitioners regarded the treatment of terminally ill cancer patients with heroic courses of chemotherapy as highly questionable Physicians loath to assign patients randomly to competing treatments also expressed their outright opposition to the randomized clinical trials that were then relatively rare And yet today these trials form the basis of medical oncology How did such a spectacular change occur How did medical oncology move from a non entity and in some regards a reviled practice to the central position it now occupies in modern medicine Cancer on Trial answers these questions by exploring how practitioners established a new style of practice at the center of which lies the cancer clinical trial

**The Meritocracy Trap** Daniel Markovits,2020-09-08 A revolutionary new argument from eminent Yale Law professor Daniel Markovits attacking the false promise of meritocracy It is an axiom of American life that advantage

should be earned through ability and effort Even as the country divides itself at every turn the meritocratic ideal that social and economic rewards should follow achievement rather than breeding reigns supreme Both Democrats and Republicans insistently repeat meritocratic notions Meritocracy cuts to the heart of who we are It sustains the American dream But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy s successes This is the radical argument that Daniel Markovits prosecutes with rare force Markovits is well placed to expose the sham of meritocracy Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within Markovits also knows that if we understand that meritocratic inequality produces near universal harm we can cure it When The Meritocracy Trap reveals the inner workings of the meritocratic machine it also illuminates the first steps outward towards a new world that might once again afford dignity and prosperity to the American people     Scientific and Technical Aerospace Reports ,1976 Lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the NASA Scientific and Technical Information Database     *The Criminal Law Reporter* ,1967-10     **A.S.M. Review of Metal Literature** American Society for Metals,1967     **Review of Metal Literature** American Society for Metals,1967     **The Publisher** ,1960     *Metals Abstracts* ,1990     **Books in Print** ,1977
