The National Security Enterprise Roger Z. George, Harvey Rishikof, 2017-07-01 This second edition of The National Security Enterprise provides practitioners insights into the operation missions and organizational cultures of the principal national security agencies and other institutions that shape the US national security decision making process Unlike some textbooks on American foreign policy it offers analysis from insiders who have worked at the National Security Council the State and Defense Departments the intelligence community and the other critical government entities The book explains how organizational missions and cultures create the labyrinth in which a coherent national security policy must be fashioned Understanding and appreciating these organizations and their cultures is essential for formulating and implementing it Taking into account the changes introduced by the Obama administration the second edition includes four new or entirely revised chapters Congress Department of Homeland Security Treasury and USAID and updates to the text throughout It covers changes instituted since the first edition was published in 2011 implications of the government campaign to prosecute leaks and lessons learned from more than a decade of war in Afghanistan and Iraq This up to date book will appeal to students of US national security and foreign policy as well as career policymakers China and EU Jing Men, Annika Linck, 2017-05-12 Reform and governance are of vital interest to both the People's Republic of China and the European Union EU China is facing demographic and environmental challenges and has been experiencing a rapid economic transition. The social tensions arising from these challenges call for a governance system that will allow the Chinese leadership to alleviate social tensions without putting at risk their leadership A society which is becoming more diverse and facing problems of a global scale that also cause turmoil at the grass roots may be difficult to govern top down Notwithstanding the Communist Party of China's CPC grip on Chinese society there may be ways to integrate public opinion and civil society organisations in governmental decision making through reforms that do not challenge the current leadership The EU on the other hand faces the same global challenges with a very different and complex governance system EU foreign and security policy thus including EU policy towards China are governed by the EU s foreign policy principles which contain among others the promotion of democracy the rule of law and the universality and indivisibility of human rights and fundamental freedoms How successful can the EU be in advancing these principles when engaging with China while respecting the Chinese political system How can the EU and China find common grounds in their governance systems so as to enhance their strategic partnership in order to tackle global issues that need a coordinated approach **The Kennedy Half-Century** Larry J. administrations national security policies Chris Edelson demonstrates that President Obama and his officials have used softer rhetoric and toned down legal arguments but in key areas military action surveillance and state secrets they have simply found new ways to assert power without meaningful constitutional or statutory constraints Edelson contends that this legacy of the two immediately post 9 11 presidencies raises crucial questions for future presidents Congress the courts and American citizens Where is the political will to restore a balance of powers among branches of government and adherence to the rule of law What are the limits of authority regarding presidential national security power Have national security concerns created a permanent shift to unconstrained presidential power The Rise of Africa'S Small & Medium Size Enterprises Dr. Robin Renee Sanders, 2017-02-08 Ambassador Dr Robin Renee Sanders new book on The Rise of Africas Small Medium Size Enterprises SMEs is an insightful examination of the dramatic shift in the development paradigm for Sub-Saharan Africa driven in large part by the imaginative innovative and insta impact leadership of the regions small businesses or SMEs SMEs have helped drive economic development growth and aided in increasing the size of the Continents middle class Sanders says With the Introduction to the book by renown civil rights leader Ambassador Andrew Young and the Foreword by Sub Saharan Africas leading businessman Mr Aliko Dangote Sanders book credits the determination of Africa SMEs and entrepreneurs which includes African nationals immigrants and African Americans for stepping into the void left by 40 years of post independence development approaches that had little impact on reducing overall poverty and creating jobs in the region Africas dynamic entrepreneurial spirit of Generation Xers and Millennials are and have formed SMEs and social enterprises that today are responsible for conceiving and inventing many of the new apps and answers to address the regions age old poverty issues Sanders emphasizes Africa SMEs are not only a key driver for jobs but serve as an additional catalyst to grow the middle class Sanders argues that it was the Rise of the Africa SME converging with technology and its mobility that has changed over the last decade the focus and direction of development in Sub Saharan Africa The book has a few vignettes from Sanders diplomatic life and work as CEO of the FEEEDS Advocacy Initiative with Africa SMEs over the years as well as regional examples of some of innovative things Africa entrepreneurs are doing in sectors ranging from agriculture and food security to energy and climate change The book also walks readers through what donors foundations and African stock markets are doing today to help in the SME space Sanders ends with recommendations of what more can be done by donors African governments and the new U S administration to further assist Africa SMEs particularly the group she calls the critical mass and those at the fragile end of Africas middle class **Contemporary Just War** Tamar Meisels, 2017-08-18 This book offers a renewed defense of traditional just war theory and considers its application to certain contemporary cases particularly in the Middle East The first part of the book addresses and responds to the central theoretical criticisms levelled at traditional just war theory It offers a detailed defense of civilian immunity the moral equality of soldiers and the related dichotomy between jus ad bellum and jus in bello and argues that these principles taken together

Report of the Senate Select Committee on Intelligence Committee Study, Context-Dependent Regulation of Neurogenesis: Common Themes and Unique Features of the Neurogenic Process in Different Model Systems Giuseppe Lupo, Michael Piper, Flavio Zolessi, 2021-05-25 Heritage Statecraft and Corporate Power Gertjan Plets, 2023-12-13 Heritage Statecraft and Corporate Power examines the politicization of heritage and heritage conflicts in Siberia In so doing

it challenges the idea that heritage is created by the state and instead argues that heritage creates the state Building upon extensive ethnographic fieldwork undertaken in south central Eurasia this book provides an analysis of the sociopolitical enmeshment of archaeology and heritage in Russia's resource colony Siberia Although many examples from across Siberia are discussed the core study region for the book is the Altai Republic which is located where Russia Mongolia Kazakhstan and China intersect Taking a heritage statecraft approach Plets argues that heritage is a particularly important political instrument in this region The book considers how different social groups including indigenous communities Russian settlers displaced groups national and international archaeologists political parties and energy companies translate archaeological data into culturally distinct heritages Plets encourages scrutiny of the different players that mobilize heritage to instill norms and ideas and the ways in which new regulations or institutions are ultimately implemented Heritage Statecraft and Corporate Power contributes to key debates around the politics of archaeology resource development and cultural heritage It will be essential reading for academics and students engaged in the study of heritage archaeology and memory

Comparative Grand Strategy Thierry Balzacq, Peter Dombrowski, Simon Reich, 2019-05-28 This book develops a new approach in explaining how a nation s Grand Strategy is constituted how to assess its merits and how grand strategies may be comparatively evaluated within a broader framework The volume responds to three key problems common to both academia and policymaking First the literature on the concept of grand strategy generally focuses on the United States offering no framework for comparative analysis Indeed many proponents of US grand strategy suggest that the concept can only be applied at most to a very few great powers such as China and Russia Second characteristically it remains prescriptive rather than explanatory ignoring the central conundrum of why differing countries respond in contrasting ways to similar pressures Third it often understates the significance of domestic politics and policymaking in the formulation of grand strategies emphasizing mainly systemic pressures This book addresses these problems It seeks to analyze and explain grand strategies through the intersection of domestic and international politics in ten countries grouped distinctively as great powers The G5 regional powers Brazil and India and pivotal powers hostile to each other who are able to destabilize the global system Iran Israel and Saudi Arabia The book thus employs a comparative framework that describes and explains why and how domestic actors and mechanisms coupled with external pressures create specific national strategies Overall the book aims to fashion a valid cross contextual framework for an emerging research program on grand strategic analysis Α **Lost Peace** Galen Jackson, 2023-04-15 In A Lost Peace Galen Jackson rewrites an important chapter in the history of the middle period of the Cold War changing how we think about the Arab Israeli conflict During the June 1967 Middle East war Israeli forces seized the Sinai Peninsula and the Gaza Strip from Egypt the Golan Heights from Syria and the West Bank and East Jerusalem from Jordan This conflict was followed in October 1973 by a joint Egyptian Syrian attack on Israel which threatened to drag the United States and the Soviet Union into a confrontation even though the superpowers had seemingly

embraced the idea of d tente This conflict contributed significantly to the ensuing deterioration of US Soviet relations The standard explanation for why d tente failed is that the Soviet Union driven mainly by its Communist ideology pursued a highly aggressive foreign policy during the 1970s In the Middle East specifically the conventional wisdom is that the Soviets played a destabilizing role by encouraging the Arabs in their conflict with Israel in an effort to undermine the US position in the region for Cold War gain Jackson challenges standard accounts of this period demonstrating that the United States sought to exploit the Soviet Union in the Middle East despite repeated entreaties from USSR leaders that the superpowers cooperate to reach a comprehensive Arab Israeli settlement By leveraging the remarkable evidence now available to scholars Jackson reveals that the United States and the Soviet Union may have missed an opportunity for Middle East peace during Visual Thinking Temple Grandin, Ph.D., 2023-10-10 INSTANT NEW YORK TIMES BESTSELLER WINNER OF the 1970s THE NAUTILUS GOLD AWARD A powerful and provocative testament to the diverse coalition of minds well need to face the mounting challenges of the twenty first century Steve Silberman An absolute eye opener Frans de Waal A landmark book that reveals celebrates and advocates for the special minds and contributions of visual thinkers A quarter of a century after her memoir Thinking in Pictures forever changed how the world understood autism Temple Grandin an anthropologist on Mars as Oliver Sacks dubbed her transforms our awareness of the different ways our brains are wired Do you have a keen sense of direction a love of puzzles the ability to assemble furniture without crying You are likely a visual thinker With her genius for demystifying science Grandin draws on cutting edge research to take us inside visual thinking Visual thinkers constitute a far greater proportion of the population than previously believed she reveals and a more varied one from the photo realistic object visualizers like Grandin herself with their intuitive knack for design and problem solving to the abstract mathematically inclined visual spatial thinkers who excel in pattern recognition and systemic thinking She also makes us understand how a world increasingly geared to the verbal tends to sideline visual thinkers screening them out at school and passing over them in the workplace Rather than continuing to waste their singular gifts driving a collective loss in productivity and innovation Grandin proposes new approaches to educating parenting employing and collaborating with visual thinkers In a highly competitive world this important book helps us see we need every mind on board *After* Brendan R. Gallagher, 2019-09-15 Since 9 11 why have we won smashing battlefield victories only to botch nearly everything that comes next In the opening phases of war in Afghanistan Iraq and Libya we mopped the floor with our enemies But in short order things went horribly wrong We soon discovered we had no coherent plan to manage the day after The ensuing debacles had truly staggering consequences many thousands of lives lost trillions of dollars squandered and the apparent discrediting of our foreign policy establishment This helped set the stage for an extraordinary historical moment in which America's role in the world along with our commitment to democracy at home and abroad have become subject to growing doubt With the benefit of hindsight can we discern what went wrong Why have we had such great difficulty planning

for the aftermath of war In The Day After Brendan Gallagher an Army lieutenant colonel with multiple combat tours to Iraq and Afghanistan and a Princeton Ph D seeks to tackle this vital question Gallagher argues there is a tension between our desire to create a new democracy and our competing desire to pull out as soon as possible Our leaders often strive to accomplish both to keep everyone happy But by avoiding the tough underlying decisions it fosters an incoherent strategy This makes chaos more likely The Day After draws on new interviews with dozens of civilian and military officials ranging from US cabinet secretaries to four star generals It also sheds light on how in Kosovo we lowered our postwar aims to quietly achieve a surprising partial success Striking at the heart of what went wrong in our recent wars and what we should do about it Gallagher asks whether we will learn from our mistakes or provoke even more disasters Human lives money elections and America s place in the world may hinge on the answer A 'Macro-regional' Europe in the Making Stefan Gänzle, Kristine Kern, 2015-10-19 Macro regional strategies seek to improve the interplay of the EU with existing regimes and institutions and foster coherence of transnational policies Drawing on macro regional governance and Europeanization this edited volume provides an overview of processes of macro regionalization in Europe displaying evidence of their significant impact
