English Women's Spiritual Utopias, 1400-1700 Alexandra Verini, 2022-06-06 English Women's Spiritual Utopias 1400 1700 New Kingdoms of Womanhood uncovers a tradition of women's utopianism that extends back to medieval women's monasticism overturning accounts of utopia that trace its origins solely to Thomas More As enclosed spaces in which women wielded authority that was unavailable to them in the outside world medieval and early modern convents were self consciously engaged in reworking pre existing cultural heritage to project desired proto feminist futures The utopianism developed within the English convent percolated outwards to unenclosed women's spiritual communities such as Mary Ward's Institute of the Blessed Virgin and the Ferrar family at Little Gidding Convent based utopianism further acted as an unrecognized influence on the first English women's literary utopias by authors such as Margaret Cavendish and Mary Astell Collectively these female communities forged a mode of utopia that drew on the past to imagine new possibilities for themselves as well as for their larger religious and political communities Tracking utopianism from the convent to the literary page over a period of 300 years New Kingdoms writes a new history of medieval and early modern women's intellectual work and expands the concept of utopia itself

Double Agents Claire A Lees, Gillian R. Overing, 2009-07-15 First printed in 2001 by the University of Pennsylvania Press this book has been out of print for several years and is highly sought after by researchers in the field of Medieval cultural studies Double Agents was the first book length study of women in Anglo Saxon written culture that took on board the insights of contemporary critical theory especially feminist theory in order to elucidate the complex challenges of both the absence and presence of women in the

historical record That is to say unlike the two earlier books on women in this period by Fell 1984 and by Chance 1986 this is not a book about only those women in the written record whether we think of it as historical or literary of Anglo Saxon England it also tackles the question of how the feminine is modelled used and metaphorised in Anglo Saxon texts even when women themselves are absent This book spans the entire Anglo Saxon period from Aldhelm and Bede in the earliest centuries to Alfric and the anonymous homilists and hagiographers of the later tenth and eleventh centuries it draws on Anglo Saxon vernacular texts as well as Latin ones and on those works most familiar to literary scholars such as the Exeter Book Riddles or Caedmon's Hymn the first so called poem in English or the female Lives of Saints as well as historians wills charters the cult of relics it deliberately reconsiders from the perspective of gender and women's agency some of the key conceptual issues that studying Anglo Saxon England presents the relation of orality to literacy that of poetry and sanctity to belief and the cultural significance of names naming and metaphors in Anglo Saxon writing

The Oxford Handbook of Politics and Performance Shirin Rai, Milija Gluhovic, Silvija Jestrovic, Michael Saward, 2021 While political scientists and political theorists have long been interested in social and political performance and theatre and performance researchers have often focused on the political dimensions of the live arts the interdisciplinary nature of this labor has typically been assumed rather than rigorously explored This volume brings together leading scholars in the fields of Politics and Performance drawing on experts across the fields of literature law anthropology sociology psychology and media and communication as well as politics and theatre and performance to map out and deepen the evolving interdisciplinary engagement Organized into seven thematic sections the volume investigates the relationship between politics and performance to show that certain features of political transactions shared by performances are fundamental to both disciplines and that to a large extent they also share a common communicational base and language
