**Caught in the Act** Cyril Julie, Lorna Holtman, Charles R. Smith, 2019-12-11 The research reported in *Caught in the Act* draws together the insights gained from a continuous professional development initiative for high school mathematics teachers teaching in low socio economic status and socially challenged environments in South Africa The chapters show the possibilities for enhancing achievement in school mathematics if a strength based approach is adopted to develop teaching with teachers and when their concerns are taken seriously The book demonstrates that the ecological relevance fitness for the context in which teachers are teaching of the goods developed and distributed by initiatives should be a major consideration to offer hope for sustainable implementation to improve school mathematics education The book is of interest to mathematics teachers school leaders mathematics curriculum advisors policy makers and researchers Proceedings of the Third International Scientific Conference "Intelligent Information Technologies for Industry" (IITI'18) Ajith

Abraham, Sergey Kovalev, Valery Tarassov, Vaclav Snasel, Andrey Sukhanov, 2018-12-06 This book contains papers presented in the main track of IITI 2018 the Third International Scientific Conference on Intelligent Information Technologies for Industry held in Sochi Russia on September 17-21 The conference was jointly co organized by Rostov State Transport University Russia and V B Technical University of Ostrava Czech Republic with the participation of Russian Association for Artificial Intelligence RAAI IITI 2018 was devoted to practical models and industrial applications related to intelligent information systems It was considered as a meeting point for researchers and practitioners to enable the implementation of advanced information technologies into various industries Nevertheless some theoretical talks concerning the state of the art in intelligent systems and soft computing were also included into proceedings **Disability Rights and Religious Liberty**

**in Education** Bruce J. Dierenfield, David A. Gerber, 2020-07-06 In 1988 Sandi and Larry Zobrest sued a suburban Tucson Arizona school district that had denied their hearing impaired son a taxpayer funded interpreter in his Roman Catholic high school The Catalina Foothills School District argued that providing a public resource for a private religious school created an unlawful crossover between church and state The Zobrests however claimed that the district had infringed on both their First Amendment right to freedom of religion and the Individuals with Disabilities Education Act IDEA Bruce J Dierenfield and David A Gerber use the Zobrests story to examine the complex history and jurisprudence of disability accommodation and educational mainstreaming They look at the family's effort to acquire educational resources for their son starting in early childhood and the choices the Zobrests made to prepare him for life in the hearing world rather than the deaf community Dierenfield and Gerber also analyze the thorny church state issues and legal controversies that informed the case its journey to the U S Supreme Court and the impact of the high court's ruling on the course of disability accommodation and religious liberty *Multicultural Education* James A. Banks, Cherry A. McGee Banks, 2019-11-12 As diversity continues to increase in the United States ethnic cultural social class and linguistic gaps are widening between teachers and their students The

rapidly changing educational landscape presents unique challenges and opportunities for addressing diversity both creatively and constructively in schools Multicultural Education helps current and future educators fully understand sophisticated concepts of culture become more effective practitioners in diverse classrooms and view race class gender social class and exceptionality as intersectional concepts Now in its tenth edition this bestselling textbook assists educators to effectively respond to the ways race social class and gender interact to influence student behavior and learning Contributions from leading authorities in multicultural education discuss the effects of class and religion on education differences in educational opportunities for male female and LGBTQ students and issues surrounding non native English speakers students of color and students with disabilities Contemporary in relevance this timely volume promotes multicultural education as a process of school reform Practical advice helps teachers increase student academic achievement work effectively with parents improve classroom assessment and benefit from diversity *Handbook on Hybrid Organisations* David Billis, Colin

Rochester, 2020-02-28 Hybrid Organisations that integrate competing organisational principles have become a preferred means of tackling the complexity of today's societal problems One familiar set of examples are organisations that combine significant features from market public and third sector organisations Many different groundbreaking approaches to hybridity are contained in this Handbook which brings together a collection of empirical studies from an international body of scholars The chapters analyse and theorise the position of hybrid organisations and have important implications for theory practice and policy in a context of proliferating hybrid forms of organisation **We Can Do It** Michael T.

Gengler, 2018-08-21 This book tells of the challenges faced by white and black school administrators teachers parents and students as Alachua County Florida moved from segregated schools to a single unitary school system After Brown v Board of Education the South's separate white and black schools continued under lower court opinions provided black students could choose to go to white schools Not until 1968 did the NAACP Legal Defense Fund convince the Supreme Court to end dual school systems Almost fifty years later African Americans in Alachua County remain divided over that outcome A unique study including extensive interviews We Can Do It asks important questions among them How did both races without precedent work together to create desegregated schools What conflicts arose and how were they resolved or not How was the community affected And at a time when resegregation and persistent white black achievement gaps continue to challenge public schools what lessons can we learn from the generation that desegregated our schools Summer Reading Richard L.

Allington, Anne McGill-Franzen, 2018-07-06 Summer reading loss accounts for roughly 80 percent of the rich poor reading achievement gap Yet far too little attention is given to this pressing problem This timely volume now offers not only a comprehensive review of what is known about summer reading loss but also provides reliable interventions and guidance Written by acknowledged experts and researchers on reading remedial reading and special education this collection describes multiple models of innovative summer reading and book distribution initiatives as well as research based

guidelines for planning a successful summer reading program including tips on book selection distribution methods and direction for crucial follow up Most important the authors clearly show how schools and communities can see greater academic gains for students from low income families using the methods described in this book than they can from much more costly interventions

**Teach** Janice Koch, 2019-01-02 Teach is a concise introduction to education that challenges students preconceived notions of teaching in order to transform them into reflective practitioners Empathizing with the difficulties students face as they move from the college classroom to their own classrooms revered author Janice Koch invites readers to both reflect on their own dispositions for teaching and look outside of themselves to the demands of the profession making the philosophy of teaching and learning accessible and relevant The Fourth Edition emphasizes the changing student population and the role of technology and globalization in the field while also including the Interstate Teacher Assessment and Support Consortium InTASC standards correlating with each chapter s content With the guidance of this supportive text students will gain vital exposure by engaging with professional standards from the very start of their career

**How People Learn II** National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Board on Science Education, Board on Behavioral, Cognitive, and Sensory Sciences, Committee on How People Learn II: The Science and Practice of Learning, 2018-10-27 There are many reasons to be curious about the way people learn and the past several decades have seen an explosion of research that has important implications for individual learning schooling workforce training and policy In 2000 How People Learn Brain Mind Experience and School Expanded Edition was published and its influence has been wide and deep The report summarized insights on the nature of learning in school aged children described principles for the design of effective learning environments and provided examples of how that could be implemented in the classroom Since then researchers have continued to investigate the nature of learning and have generated new findings related to the neurological processes involved in learning individual and cultural variability related to learning and educational technologies In addition to expanding scientific understanding of the mechanisms of learning and how the brain adapts throughout the lifespan there have been important discoveries about influences on learning particularly sociocultural factors and the structure of learning environments How People Learn II Learners Contexts and Cultures provides a much needed update incorporating insights gained from this research over the past decade The book expands on the foundation laid out in the 2000 report and takes an in depth look at the constellation of influences that affect individual learning How People Learn II will become an indispensable resource to understand learning throughout the lifespan for educators of students and adults

*Course Syllabi in Faculties of Education* André Elias Mazawi, Michelle Stack, 2020-06-11 Course Syllabi in Faculties of Education problematizes one of the least researched phenomena in teacher education the design of course syllabi using critical and decolonial approaches This book looks at the struggles that scholars policy makers and educators from a diverse range of countries including Australia Canada India Iran Palestine Qatar Saudi Arabia the USA

and Zambia face as they design course syllabi in higher education settings The chapter authors argue that course syllabi are political constructions representing intense sites of struggles over visions of teacher education and visions of society As such they are deeply immersed in what Walter Mignolo calls the geopolitics of knowledge Authors also show how syllabi have become akin to contractual documents that define relations between instructors and students Based on a set of empirically grounded studies that are compared and contrasted the chapters offer a clearer picture of how course syllabi function within distinct socio political economic and historical contexts of practice and teacher education

### **Ethics in the University**

James G. Speight, 2016-08-26 It is the continuous reports of unethical behavior in the form of data manipulation cheating plagiarism and other forms of unacceptable behavior that draw attention to the issues of misconduct The causes of misconduct are manifold whether it is the need to advance in a chosen discipline or to compete successfully for and obtain research funding Disappointingly individuals who are oriented to any form of dishonesty are individuals who had previously displayed little or no consideration for the feelings of others and are therefore more interested in themselves at the expense of the students and others recognizing them by any means necessary This ground breaking and honest examination of ethics in the university setting is unabashed in its descriptions of misconduct in the academic world The text is well furnished with numerous citations that point to academic misconduct and the final chapter deals with the means by which misconduct can be mitigated a strong reminder to everyone in the academic community that above board conduct must be part of our overall message of learning and part of the whole point of education in the first place A must have for academics and non academics alike this text is the second in a series of books on ethics by James G Speight and it is useful to anyone in any industry who is interested in ethical behavior and how to navigate the sometimes murky depths of our professional lives
