last fifty years from well known blockbusters to critical favorites and cult classics *Hair!* Marilyn Singer, 2019-01-01 Why are humans and other mammals covered in hair and why are there so many different types of it Vivid photographs paired with a duo of quirky illustrated hair guides serve to illuminate fascinating facts about mammal hair why it exists what it's good for and more Readers will learn about different types of animal coats such as fur and down and explore the many different forms guard hairs take such as the quills on a porcupine *Trees of the Brain, Roots of the Mind* Giorgio A. Ascoli, 2015-04-24 An examination of the stunning beauty of the brain's cellular form with many color illustrations and a provocative claim about the mind-brain relationship The human brain is often described as the most complex object in the universe Tens of billions of nerve cells tiny tree-like structures make up a massive network with enormous computational power In this book Giorgio Ascoli reveals another aspect of the human brain the stunning beauty of its cellular form Doing so he makes a provocative claim about the mind-brain relationship If each nerve cell enlarged a thousandfold looks like a tree then a small region of the nervous system at the same magnified scale resembles a gigantic fantastic forest This structural majesty illustrated throughout the book with extraordinary color images hides the secrets behind the genesis of our mental states Ascoli proposes that some of the most intriguing mysteries of the mind can be solved using the basic architectural principles of the brain After an overview of the scientific and philosophical foundations of his argument Ascoli links mental states with patterns of electrical activity in nerve cells presents an emerging minority opinion of how the brain learns from experience and unveils a radically new hypothesis of the mechanism determining what is learned what isn't and why Finally considering these notions in the context of the cosmic diversity within and among brains Ascoli offers a new perspective on the roots of individuality and humanity **The Artful Nuance** Rod L. Evans Ph.D., 2009-02-03 The difference between the almost right word and the right word is really a large matter Mark Twain What's the difference between Nectar and ambrosia Bough and branch Astonished and surprised Sensual and sensuous Beside and besides Many people use these words interchangeably but there are actually subtle and interesting differences in meaning and usage Now from the author of *Every Good Boy Deserves Fudge* comes a fun and fascinating word reference book for word lovers students and trivia collectors alike Readers will relish learning about these distinctions in this entertaining homage to a gift we use every day words **Read On...History** Tina Frolund, 2013-10-21 Make history come alive This book helps librarians and teachers as well as readers themselves find books they will enjoy titles that will animate and explain the past entertain and expand their minds This invaluable resource offers reading lists of contemporary and classic non-fiction history books and historical fiction covering all time periods throughout the world and including practically all manner of human endeavors Every book included is hand selected as an entertaining and enlightening read Organized by appeal characteristics this book will help readers zero in on the history books they will like best for instance titles that emphasize character tell a specific type of historical story convey a mood or are presented in a particular setting Every book listed has been recommended based on the author's

research and has proved to be a satisfying and worthwhile read Embodiment and Cultural Differences Bianca Maria Pirani, Thomas Spence Smith, 2016-08-17 Embodiment and Cultural Differences focuses on the body as the equilibrium limit between the memory of time already passed and the dynamic where of unexpected happenings The body's ecology is fulfilled in the surrounding environment within this variable limit Each embodiment operation is in fact an experimental setting that consists of the unrepeatable executive instants through which like a musical score the body synchronises human consciousness with the context of action What distinguishes the architecture of this book is that collectively it constitutes a challenge to the digital media paradigm in which the body is treated simply as a two dimensional icon of space and time a relatively free form with all kinds of narratives generated by the multimedia The volume demonstrates how fundamentally different ways of experiencing time are also determined by the differing cultural use of bodily rhythms Central to the understanding of this interdependence is the study of synchronisation increasing knowledge through the investigation of how rhythm music chants dance prayer and other harmonising practices support social integration The book also touches upon the anxieties fears and ambivalences affecting contemporary European societies particularly those that have followed in the wake of terrorist attacks and the influx of refugee populations The participating authors are all members of the International Sociological Association and part of the Research Committee 54 The Body in the Social Sciences This is in short a book that will attract wide interest especially from social scientists researchers and academics in the social sciences sociology and digital studies in addition to further afield for example in health philosophy education and anthropology **Sorry, Wrong**

Answer Rod L. Evans Ph.D., 2010-06-01 Where were Venetian blinds invented What color is the black box on a commercial airplane Where did India ink originate Most of us know more than we think we know We also think we know more than we actually do because some of what we think we know simply ain't so We all harbor misconceptions that are accepted not only because they are popular but also because they make sense It makes sense to believe for example that German chocolate originated in Germany rather than the truth that German chocolate is so named because it was created by Sam German It seems logical to believe that Mercury is the hottest planet because of its proximity to the sun or that buttermilk contains butter that Danish pastry is from Denmark and that the boat race America's Cup was named after the United States of America In Sorry Wrong Answer Rod Evans takes readers on a tour of misleading trivia debunking commonly held assumptions and sharing surprising right answers Answers Japan Orange China **ARTIFICIAL INTELLIGENCE: A**
