

SEL ACTIVITIES for Middle School Students: Decision Making

Middle School Decision Making Activities

Janis E. Jacobs, Paul A. Klaczynski

Middle School Decision Making Activities:

Decision-making Skills for Middle School Students Sherrel Bergmann, Gerald J. Rudman, 1985-01-01 Early adolescence is a time when students require adult assistance to become accurate and effective decision makers and problem solvers. Because of the fragmented nature of society, the family structure, and the schooling process, schools need to establish a nonthreatening environment in which students can discuss the issues related to growing up. A decision making course in the middle school can become that program. Results of the first six years of the decision making course at Elm Place Middle School in Highland Park, Illinois, are described, illustrating a definite positive response on the part of all students. The logistics for designing and implementing such a program in the middle school are discussed. Teaching strategies, projects, and activities are outlined. Sample activities are appended along with sample communications to parents and students. JD

Social Decision Making/social Problem Solving for Middle School Students Maurice J. Elias, Linda Bruene Butler, 2005 School counseling staff as well as teachers and others running advisory or related groups will find this manual to be useful for helping students succeed in middle school. At this critical point in their lives, young adolescents can move in a positive and hopeful direction or they can enter into a negative downward spiral. SDM SPS provides students with basic school survival skills and research-based strategies for responsible decision making and problem solving. SDM SPS uses a positive, project-oriented approach to help reduce school violence, foster social and emotional intelligence, improve academic effort and attention, develop multicultural perspectives, and prevent at-risk students from giving up on school. The authors present a thoroughly tested and effective approach for working with a broad spectrum of learners, including those with emotional and behavioral disorders. The manual includes numerous reproducible worksheets and assessment tools for tracking progress. It provides strategies for supporting academic achievement, improving media literacy skills, encouraging parent involvement, and implementing a school community service project. **BOOK JACKET** *Teambuilding with Teens* Mariam G. MacGregor, 2007-11-15 The 36 activities in this book make learning about leadership a hands-on, active experience. Kids are called on to recognize each other's strengths, become better listeners, communicate clearly, identify their values, build trust, set goals, and more. Each activity takes 20-45 minutes. Digital content includes all of the book's reproducible forms.

Student Activities in Today's Schools Edward J. Klesse, 2004-04-09 What are student activities? Why do schools have student activity groups? What are the benefits for students, schools, and communities? These are some of the questions that *Student Activities in Today's Schools* addresses. Klesse has reviewed relevant educational research to provide an overview of the essential learning for all youth that is available from participation. What are those benefits, and who benefits? Why don't all young people participate? Are there ways to make student activity programs in schools more inclusive? What will these programs look like in 5, 10, and 15 years? Schools must educate and develop our youth to meet the challenge of participation and survival in a global economy. The skills learned through student activities provide the foundation for adult participation.
