Air Traffic Rules and Procedures Service, 1991 *Sport Facility Operations Management* Stacey A. Hall, Simon Shibli, Eric Schwarz, 2010-05-14 This is the first book to take a truly global look at facilities operations management in the sport industry Sports facilities management is in the national news with reports from the BBC that three 2012 Olympic venues in London are being evaluated by accountants to see whether they will deliver value for money The current estimate of government spending on the games is 9.3 billion There is also an ongoing debate about the fate of the 80 000 seat stadium that is being constructed for the games at a cost of 500 million Sport facilities of all shapes and sizes are an ingrained part of global sport management culture As such it is inevitable that students who enter into the field of sport management will interact with the management and operations of a sport facility at some point during their career This textbook provides the theoretical foundation for sport facility operations management and is supplemented both in the text and in the companion site containing schematics planning documents sample forms and sample ownership management structures In addition each author will infuse research and experiences from sport facilities around the world North America Europe Middle East Asia Australia and New Zealand to ensure that a global perspective is at the core of this book This book is published with the sport management lecturer and student in mind **Sport Facility Operations Management** Eric C. Armstrong, 2002 One of the recurrent themes in facilities management is the failure of the design team to understand the needs of the building users The end user frequently feels aggrieved at the perceived lack of foresight applied by the design team There have been moves to bridge the gap between construction needs and end user needs with the introduction of the CDM Regulations and various research initiatives This

has been primarily aimed at the construction industry rather than the building user CIRIA has produced this guide to focus on the needs of the building user The framework presented brings a clear understanding of the capabilities of premises performance limits costs servicing maintenance and breakdown procedures and the long term management strategy This guide provides facility managers and other property operators with an improved understanding of the information required to successfully operate and maintain their facilities Clear and specific guidelines are provided for a standard structure and content for the facilities management manual which can be regularly updated during the life of the facility Templates are provided for data presentation together with a sample manual and a model specification for preparing a manual
