Fall 201world History Semester Exam Review:

Air University Periodical Index ,1958 **Air University Library Index to Military Periodicals** ,1958 The Rise and Fall of Civic Education Michael Learn,2024-09-16 Social studies is a field in crisis The crisis stems from failure to establish the very foundation of social studies purpose in public education civic education Social studies advocates have never put forth a coherent method for teaching civic education because policymakers and the public have been unable to agree upon a general definition of civic education This issue has disrupted the field since the early days As educators sought to include civic education within public schools as a dedicated field social studies evolved into a blending of history social sciences and civic education Social studies evolution never resolved the differences between the three with each discipline striving to control the narrative Instead of creating a unified field the disciplines devalued social studies and thus any discipline associated with it The Rise and Fall of Civic Education The Battle for Social Studies in a Shifting Historical Landscape investigates the changing definitions and purposes ascribed to social studies in the United States through time This result is viewed through the rising tensions from culture wars as America s divisive politics fight to control the narrative of the disciplines within social studies *Catalogue Number. Commemorating the Irish Civil War Anne Dolan, 2006-04-27 After civil war can the winners commemorate their victory hailing their conquering heroes with the blood of their former comrades still fresh on their boots Or should they cover themselves in shame and hope that the nation soon forgets In this book Anne Dolan explores the tensions between memory and forgetting in twentieth century Ireland By examining the memory of winning the Irish Civil War she discusses the extent to which it has been used to serve party political ends where private grief finds consolation when the dead have fallen from political favour and how the dead are remembered when no one wanted to fight the war The book addresses the Irish Civil War at its most public point at the statues and crosses and in the ritual and rhetoric of commemoration It will be of central interest to all students and scholars of European history and politics
