rashes headache chest pain pounding heart swelling upset stomach paralysis AIDS like illnesses psychotic experiences and just about every other symptom noted in medical textbooks One prominent clinical ecologist even claimed that chemical sensitivity patients may well be human canaries on an increasingly poisoned planet and others have actually labeled chemical sensitivity as a disease While some people are adversely affected by exposure to some chemicals there is an overwhelming increase in false claims and reports from misled obsessive patients and opportunistic doctors Chemical Sensitivity examines this phenomenon in depth and the scientific legal ethical and political issues that surround it The authors explore the speculations about environmental exposure in the light of scientific knowledge of human physiology allergy and immunology pathology toxicology and clinical medicine They evaluate cases of chemical sensitivity relative to controlled tests and reveal that symptoms were brought on by psychological factors rather than physical ones Chemical Sensitivity also critically assesses claims related to sick building syndrome mercury amalgam toxicity yeast allergy and Gulf War syndrome **The**
