more generally **From Texts to Bodies** Jacqueline Murray, 2025-04-24 *From Texts to Bodies* Sexes, Genders, and Sexualities in Premodern Europe reflects the historiographical changes to the study of women, gender, and sexuality in premodern Europe across the 1990s into the 2010s. Developing from post-Baby Boom interest in marriage and the family, subsequently inspired by feminist theory and cultural studies, scholars turned their gaze to the wider field of sex and gender. Using an interdisciplinary methodology and a broad cross-section of medieval primary sources, these articles trace the evolution of medieval studies from the family through women and gender to focus on sex and sexuality, concluding with critical analyses of men, masculinity, and male embodiment. Part I focuses on medieval women within the context of marriage, family, and the church, and reveals new approaches to recovering women's experiences. The articles sit at the transition point between recuperative women's history and critical gender history. Part II uses an interdisciplinary lens to examine the body, sex, and sexuality, and the intersections of sex, sexualities, and genders. The innovative articles in Part III comprise the foundations for the critical analysis of premodern men, masculinity, embodiment, and male sexuality. Together, these studies demonstrate the expansion of research from the examination of theoretical texts to the analysis of bodies as lived experience. This volume will be of interest to scholars and students of premodern marriage, genders, sexualities, and embodiment, as well as those interested in the social and religious contexts of premodern society. Clear and accessible, this volume also provides an introduction and overview for readers with a broad interest in the Middle Ages. **Sexual Health** Stephanie Baird, Wendy Stock, Katherine Hertlein, 2025-10-14 *Discover inclusive, trauma-informed sexual health insights using science-based models and therapies.* This comprehensive science-based textbook is designed for upper-level college, graduate students, and professionals in psychology, psychotherapy, counseling, social work, and other related fields. Treatment strategies span eye movement desensitization and reprocessing (EMDR), therapy, cognitive behavioral therapy (CBT), systemic approaches, medical interventions, and psychoeducation to address sexual health and treatment with the potential impact of trauma as a central theme. **Key Features:** Builds competence in treating sexual issues using EMDR, CBT, systemic, and psychodynamic methods.
