Tobias Bleicker

Historical Fact And Fiction:

Historical Fact And Fiction Syed Muhammad Naquib al-Attas, 2011 In this book the author gives a penetrating insight into the ways of spurious thinking and analytical reasoning among historians of the Malay Archipelago in their explanation and interpretation of historical events pertaining to the coming and spread of Islam in the Archipelago He exposes errors and fallacies in their chronological framework and educated conjectures their tainted assumptions on the religious and cultural effects of Islamization in indigenous history In dealing with the Islamic past his critique of their empirical and inductive methods and weak logical analysis and rational estimation deserves due appreciation In contradiction to what the historians assume as the facts of history the author demonstrates his own explanation and interpretation of the major issues and casts new light on many basic matters that have hitherto eluded inquiry

The Fact/Fiction Dichotomy in Adam Thorpe's Historical Novel "Hodd" Giuseppe Dennis Messina, 2019-01-17 Seminar paper from the year 2017 in the subject English Language and Literature Studies Literature grade 2 3 Johannes Gutenberg University Mainz language English abstract This term paper analyses Adam Thorpe's Hodd a historical novel published in 2009 a supposedly Latin translation of an allegedly lost Middle English manuscript that fundamentally changes the image of Robin Hood Adam Thorpe uses different techniques to achieve authenticity with his novel but there are also traits neglecting the reliability of his narration First these techniques and their function will be analysed and then the focus will shift to Linda Hutcheon's postmodernist genre of historiographic metafiction which redefined the use of historical material in fiction and the meaning of literature for history in the 1960s questioning whether Hodd is a novel which uses historiographic metafiction The last part will sum up the findings and embed the topic in a broader context

The American Biographical Novel Michael Lackey, 2016-04-07 Before the 1970s there were only a few acclaimed biographical novels But starting in the 1980s there was a veritable explosion of this genre of fiction leading to the publication of spectacular biographical novels about figures as varied as Abraham Lincoln Ludwig Wittgenstein Friedrich Nietzsche Emily Dickinson Virginia Woolf Henry James and Marilyn Monroe just to mention a notable few This publication frenzy culminated in 1999 when two biographical novels Michael Cunningham's *The Hours* and Russell Banks' *Cloudsplitter* were nominated for the Pulitzer Prize and Cunningham's novel won the award In *The American Biographical Novel* Michael Lackey charts the shifts in intellectual history that made the biographical novel acceptable to the literary establishment and popular with the general reading public More specifically Lackey clarifies the origin and evolution of this genre of fiction specifies the kind of truth it communicates provides a framework for identifying how this genre uniquely engages the political and demonstrates how it gives readers new access to history **Fact - Fiction - "faction"** Horst Zander, 1999 Lying,

Truth-telling, and Storytelling in Children's and Young Adult Literature Anita Tarr, 2023-12-20 Even though we instruct our children not to lie the truth is that lying is a fundamental part of children's development socially cognitively emotionally morally Lying can sometimes be more compassionate than telling the truth even more ethical Reading specific children's books can instruct child readers how to be guided by an etiquette of lying to know when to tell the truth and when to lie Equally important these stories can help prevent them from being prey to those liars who are intent on taking advantage of them Becoming a critical reader requires that one learn how to lie judiciously as well as to see through others' lies When humans first began to speak we began to lie When we began to lie we started telling stories This is the paradox that in order to tell truthful stories we must be good liars Novels about child artists showcased here illustrate how the protagonist embraces this paradox accepting the stigma that a writer is a liar who tells the truth Emily Dickinson's phrase *tell it slant* best expresses the vision of how writers for children and young adults negotiate the conundrum of both protecting child readers and teaching them to protect themselves This volume explores the pervasiveness of lying as well as the necessity for

lying in our society the origins of lying as connected to language acquisition the realization that storytelling is both lying and truth-telling and the negotiations child artists must process in order to grasp the paradox that to become storytellers they must become expert liars and lie detectors *Contesting the Monument: The Anti-illusionist Italian Historical Novel: No. 10*
Ruth Glynn, 2017-12-02 In the second half of the twentieth century the Italian historical novel provided an unrivalled number of best sellers and publishing phenomena The success of the genre is closely related to a more general interest in revisiting the past in the light of a changed understanding of the nature or philosophy of history This study aims to explore the particularly marked increase in the production and popularity of the historical novel in the period between the mid 1960s and the early 1990s with reference to current debates on the nature of history It presents a theoretical framework which establishes the centrality of philosophy of history to the development of the genre The employment of this framework opens out the discussion of literary change to the consideration of historiographical developments and wider critical debate The theoretical insights gained inform the close textual analysis provided in the chapters dealing with novels written by five of Italy's foremost contemporary writers Leonardo Sciascia Vincenzo Consolo Sebastiano Vassalli Umberto Eco and Luigi Malerba **Inventing Eleanor** Michael R. Evans, 2014-09-25 Eleanor of Aquitaine 1124-1204 queen of France and England and mother of two kings has often been described as one of the most remarkable women of the Middle Ages Yet her real achievements have been embellished and even obscured by myths that have grown up over eight centuries This process began in her own lifetime as chroniclers reported rumours of her scandalous conduct on crusade and has continued ever since She has been variously viewed as an adulterous queen a monstrous mother and a jealous murderess but also as a patron of literature champion of courtly love and proto feminist defender of women's rights Inventing Eleanor interrogates the myths that have grown up around the figure of Eleanor of Aquitaine and investigates how and why historians and artists have invented an Eleanor who is very different from the 12th century queen The book first considers the medieval primary sources and then proceeds to trace the post medieval development of the image of Eleanor from demonic queen to feminist icon in historiography and the broader culture
