The Scarlet Daybreak: Bilingual English & German Edition Friedrich Nietzsche, 2024-05-09 A new translation from the original manuscript of Nietzsche's 1881 *Morgenröte*. This edition is bilingual: the original text is included in the back as reference material behind the English translation. This is volume 4 in *The Complete Works of Friedrich Nietzsche* from Livraria Press. This chronological systematic set of Nietzsche's works is the first ever bilingual *Hauptwerke* or complete major works of Nietzsche published in English: the original German. This work is often translated as *The Dawn* or *The Dawn of Day*. This is a poor translation of the original title *Morgenröte* which refers to the reddening of the sky in the pre-dawn hours. *Morgenröte* or *Morgenröte* in the modern spelling literally means *Morning Red*, a unique German word referring to the reddening of the sky in the twilight hours before daybreak. Rendering such as *The Dawn of Day* or just *Daybreak* but this misses the connotations of the word. *Dämmerung* is dawn but *Morgenröte* is a specific phenomenon of the predawn eastern sky. In Roman mythology there is a Goddess associated with the *Morgenröte*, *Aurora*. In Greek mythology Homer called this the rose-fingered *Eos*. This has continuity into Christianity as the *Red Mass*, the beginning of two different antiphons in the liturgy of the Roman Catholic Church at Advent to celebrate Mary who is symbolized by the dawn, traditionally celebrated in the pre-dawn reddening of the sky. While there isn't a direct equivalent word for the pre-dawn reddening, the closest literal translation would be *The Reddening Dawn*, but to capture the dramatic tone I rendered this *The Scarlet Daybreak*. Nietzsche is speaking here of a hope for his own dawn out of the nihilism he was born into: *seine eigene Morgenröte*. In his initial declaration of war against Metaphysics in *Human, All too Human*, Nietzsche writes the will is ashamed of the intellect. This initial foray into Schopenhauer's philosophy of the force of the will finally manifest itself as the *Willen zur Macht* here in *The Scarlet Daybreak*. Through this lens he takes on the whole of Christianity and the Judeo-Christian moral continuum. He considers religious experience, particularly Christianity, as a psychopathological phenomenon, an idea he articulates in every single one of his works. His perspective shifts from a Darwinian *Historical in Human, All too Human* to a more phenomenological psychological approach here in *The Scarlet Daybreak*.

Evidentiality in German Gabriele Diewald, Elena Smirnova, 2010-08-31 This book is a comprehensive study of the evidential system in German. It presents a systematic description of the encoding of evidentiality in present-day German as well as a diachronic reconstruction of the relevant sources and paths of grammaticalization from the Old High German period onwards. Based on empirical corpus research, the study investigates the degree of grammaticalization of each single evidential construction and the make-up of the present-day system as well as the diachronic stages that lead to the present state. The book focuses on three main issues. First, it is concerned with the general notion of evidentiality, its deictic character, and with the interrelations between the domains of evidentiality and epistemic modality. Second, the book presents the results of the synchronic corpus-based analysis of the German evidential periphrastic constructions: *werden* (become), *infinitive* (seem), *scheinen* (seem), *drohen* (threaten), *versprechen* (promise).

zu to infinitive which constitute a paradigm for coding evidentiality in Present Day German Third the diachronic development of the evidential constructions is represented as a complex grammaticalization process interacting with the development of modal constructions and leading to a highly differentiated category of modal and evidential distinctions in the grammar of German
