Wireless LAN Stand

Wireless LAN Connectivity Offering Location-independent Service

Mitel® Wireless LAN (WLAN) Stand is a unique accessory that allows you to put your Mitel IP phone where it's most convenient for you, and not be constrained to the area around your local area network (LAN) or Internet connection. The innovative design of the Wireless LAN Stand allows your wired Mitel IP phone to be converted to a wireless device so it can connect to the wireless network anywhere in your enterprise, small business or even at home. Wireless LAN Stand is ideal for temporary installations, small offices, retail outlets, mobile workers, customers with wiring constraints, wireless greenfield sites or teleworkers with a wireless LAN at home.

Operates with Standard Wireless Access Points
Wireless LAN Stand allows Mitel IP phones to operate in existing 802.11b or 802.11g wireless networks. This is ideal for temporary or existing installations where it is easier or more cost effective to implement a wireless network rather than a wired LAN.

**Operates as an Access Point —
Create your own Wireless LAN**

Alternatively, the Wireless LAN Stand connected to an IP phone can allow that phone to act as an access point for up to six other wireless Mitel IP phones. You can connect a PC to the second port of the wireless IP phones to have wireless data access. So you can create your own wireless LAN in small installations!

**Integrated Voice Prioritization
and Security Protocols**

To protect your data and privacy, all wireless transmissions can be encrypted with WEP or industrial-strength WPA-R protected access (WPA / WPA2) security. Wireless LAN Stand supports wireless multimedia (WMM) to ensure prioritization of voice (QoS) in a wireless network.

Easy to Install

Wireless LAN Stand easily snaps on and plugs into the back of the Mitel IP phone, replacing the regular stand that ships with the IP phone. It requires no additional ports, licenses or software options, and takes up no additional space on your desk.
