Fellow Feeling And The Moral Life:

Fellow-feeling and the Moral Life Joseph Duke Filonowicz, 2008 How do our feelings for others shape our attitudes and conduct towards them Is morality primarily a matter of rational choice or instinctual feeling Joseph Duke Filonowicz takes the reader on an engaging informative tour of some of the main issues in philosophical ethics explaining and defending the ideas of the early modern British sentimentalists These philosophers Shaftesbury Hutcheson Hume and Smith argued that it is our feelings and not our reason which ultimately determine how we judge what is good or bad right or wrong and how we choose to act towards our fellow human beings Filonowicz draws on contemporary sociology and evolutionary biology as well as present day moral theory to examine and defend the sentimentalist view and to challenge the rationalistic character of contemporary ethics His book will appeal to readers interested in both the history of philosophy and current ethical debates

Merleau-Ponty and the Ethics of Intersubjectivity Anya Daly, 2016-05-31 This book draws on Merleau Ponty's phenomenology psychology neuroscience and Buddhist philosophy to explicate Merleau Ponty's unwritten ethics Daly contends that though Merleau Ponty never developed an ethics per se there is significant textual evidence that clearly indicates he had the intention to do so This book highlights the explicit references to ethics that he offers and proposes that these allied to his ontological commitments provide the basis for the development of an ethics In this work Daly shows how Merleau Ponty's relational ontology in which the interdependence of self other and world is affirmed offers an entirely new approach to ethics In contrast to the top down ethics of norms obligations and prescriptions Daly maintains that Merleau Ponty's ethics is a bottom up ethics which depends on direct insight into our own intersubjective natures the I within the we and the we within the I insight into the real nature of our relation to others and the particularities of the given situation *Merleau Ponty and the Ethics of Intersubjectivity* is an important contribution to the scholarship on the later Merleau Ponty which will be of interest to graduate students and scholars Daly offers informed readings of Merleau Ponty's texts and the overall approach is both scholarly and innovative

Compassion and Moral Guidance Steve Bein, 2013-01-31 Compassion is a word we use frequently but rarely precisely One reason we lack a philosophically precise understanding of compassion is that moral philosophers today give it virtually no attention Indeed in the predominant ethical traditions of the West deontology consequentialism virtue ethics compassion tends to be either passed over without remark or explicitly dismissed as irrelevant And yet in the predominant ethical traditions of Asia compassion is centrally important All else revolves around it This is clearly the case in Buddhist ethics and compassion plays a similarly indispensable role in Confucian and Daoist ethics In *Compassion and Moral Guidance* Steve Bein seeks to explain why compassion plays such a substantial role in the moral philosophies of East Asia and an insignificant one in those of Europe and the West The book opens with detailed surveys of compassion's position in the philosophical works of both traditions The surveys culminate in an analysis of the conceptions of self and why the differences between these conceptions serve either to celebrate or marginalize the

importance of compassion Bein moves on to develop a model for the ethics of compassion including a chapter on applied ethics seen from the perspective of the ethics of compassion The result is a new approach to ethics one that addresses the Rawlsian and Kantian concern for fairness the utilitarian concern for satisfactory consequences and the concern in care ethics for the proper treatment of marginalized groups Bein argues that compassion's capacity to address all of these makes it a primary tool for ethical decision making

Adam Smith's "The Theory of Moral Sentiments" John McHugh, 2021-09-09 Many contemporary readers are just now discovering Adam Smith's *The Theory of Moral Sentiments* TMS It is increasingly being recognised as a foundational text in moral philosophy and in Adam Smith's oeuvre more generally This is the first companion to guide readers through TMS and uncover what Smith thinks why he thinks it why he might be wrong to think it While Adam Smith is best known for *A Wealth of Nations* there is a history of seriously misinterpreting this text as an unnuanced celebration of unfettered capitalism *The Theory of Moral Sentiments* is a kind of corrective to these naïve readings As such any serious consideration of Adam Smith's work should also include TMS John McHugh's guide provides detailed analysis of TMS while never losing sight of the text in the context of Smith's writings and world view more generally It offers both an introduction to the importance and insight of TMS while also functioning as a great way in to Adam Smith as a philosopher

The Nature of Sympathy Max Scheler, 2017-07-28 *The Nature of Sympathy* explores at different levels the social emotions of fellow feeling the sense of identity love and hatred and traces their relationship to one another and to the values with which they are associated Scheler criticizes other writers from Adam Smith to Freud who have argued that the sympathetic emotions derive from self-interested feelings or instincts He reviews the evaluations of love and sympathy current in different historical periods and in different social and religious environments and concludes by outlining a theory of fellow feeling as the primary source of our knowledge of one another A prolific writer and a stimulating thinker Max Scheler ranks second only to Husserl as a leading member of the German phenomenological school Scheler's work lies mostly in the fields of ethics politics sociology and religion He looked to the emotions believing them capable in their own quality of revealing the nature of the objects and more especially the values to which they are in principle directed

Affective Authority: Passions, Morality and Governance in Early Modern England Linda A. Linda Pollock, 2025-06-10 Throws new light on the history of emotions as well as on cultural norms and elite governance in early modern English society This book investigates the intimate connection between emotion and morality in the landed ranks in England from 1580 to 1700 reintegrating the artificially separated spheres of emotions and ethics It argues that long before the modern eighteenth century emotions lay at the core of early modern ethics virtues and passions were fused and affect underpinned authority Passions affections and

ethics were intertwined and must be understood together feelings enabled and constituted ethical conduct and were often mandated obligations while cultural norms were based on affective concepts Through a detailed analysis of four key affective values love gratitude repentance and obedience the book throws new light on the history of emotions as well as on cultural norms and elite governance in early modern English society The book merges social cultural and intellectual history It explores how ideals and concepts were practiced in daily life emphasizes the importance of the domestic familial world for the understanding and exercise of public authority and governance and insists on the centrality of the passions and affections to early modern morality It contributes to the history of emotions by reconnecting affect and ethics advances the history of English society by showing how authority was based on affect thus demonstrating the relevance of emotion to larger historical issues

Passion Is the Gale Nicole Eustace,2012-12-01 At the outset of the eighteenth century many British Americans accepted the notion that virtuous sociable feelings occurred primarily among the genteel while sinful and selfish passions remained the reflexive emotions of the masses from lower class whites to Indians to enslaved Africans Yet by 1776 radicals would propose a new universal model of human nature that attributed the same feelings and passions to all humankind and made common emotions the basis of natural rights In *Passion Is the Gale* Nicole Eustace describes the promise and the problems of this crucial social and political transition by charting changes in emotional expression among countless ordinary men and women of British America From Pennsylvania newspapers pamphlets sermons correspondence commonplace books and literary texts Eustace identifies the explicit vocabulary of emotion as a medium of human exchange Alternating between explorations of particular emotions in daily social interactions and assessments of emotional rhetoric's functions in specific moments of historical crisis from the Seven Years War to the rise of the patriot movement she makes a convincing case for the pivotal role of emotion in reshaping power relations and reordering society in the critical decades leading up to the Revolution As Eustace demonstrates passion was the gale that impelled Anglo Americans forward to declare their independence collectively at first and then finally as individuals

Selfhood and Recognition Anita C. Galuschek,2017-11-01 The disciplines of philosophy and cultural anthropology have one thing in common human behavior Yet surprisingly dialogue between the two fields has remained largely silent until now *Selfhood and Recognition* combines philosophical and cultural anthropological accounts of the perception of individual action exploring the processes through which a person recognizes the self and the other Touching on humanity as porous fractal individual and relational the author sheds new light on the nature of selfhood recognition relationality and human life
