Feminist Writings Simone de Beauvoir, 2015-03-01 The philosopher's writings on and engagement with twentieth century feminism By turns surprising and revelatory this sixth volume in the Beauvoir Series presents newly discovered writings and lectures while providing new translations and contexts for Simone de Beauvoir's more familiar writings Spanning Beauvoir's career from the 1940s through 1986 the pieces explain the paradoxes in her political and feminist stances including her famous 1972 announcement of a conversion to feminism after decades of activism on behalf of women *Feminist Writings* documents and contextualizes Beauvoir's thinking writing public statements and activities in the services of causes like French divorce law reform and the rights of women in the Iranian Revolution In addition the volume provides new insights into Beauvoir's complex thinking and illuminates her historic role in linking the movements for sexual freedom sexual equality homosexual rights and women's rights in France *Feminist Activism, Travel and Translation Around 1900* Johanna Gehmacher, 2023-12-26 This open access book takes the biographical case of German feminist K the Schirmacher 1865 1930 a multilingual translator widely travelled writer of fiction and non fiction and a disputatious activist to examine the travel and translation of ideas between the women's movements that emerged in many countries in the late 19th and early 20th century It discusses practices such as translating interpreting and excerpting from journals and books that spawned and supported transnational civic spaces and develops a theoretical framework to analyse these practices It examines translations of literary scholarly and political texts and their contexts The book will be of interest to academics as well as undergraduate and postgraduate students in the fields of modern history women's and gender history cultural studies transnational and transfer history translation studies history and theory of biography **The Anonymous Text** Simone Celine Marshall, 2010 One of the most intriguing features of *The Assembly of Ladies* an anonymous fifteenth century Middle English poem is that it has remained in print in anthologies for over 500 years Why would a poem about courtly love remain so popular for so long This book analyses the literary and historical publishing evidence about *The Assembly of Ladies* to show that the poem has remained in print not for its literary merit but because its anonymity has allowed it to be appropriated by editors for their own particular social and political causes The book draws together textual contextual and intertextual evidence about all twenty editions of *The Assembly of Ladies* By examining closely how and why a single text is or has been included in canonical traditions over time this study not only reveals the material presence of the text in various traditions but also brings to the foreground the categories scholars continue to use while defining or imagining those traditions *Women of Ideas* Dale Spender, 2024-11-20 Originally published in 1982 with characteristic energy humour and learning Dale Spender traces three hundred years of women's ideas She uncovers not only the ways and words of women but the methods of men While men control knowledge she argues they are in a position to take women's ideas If they like them they use them if they don't they lose them Every fifty years women are required to reinvent the wheel for every generation of women is initiated

into a world in which women's traditions have been denied and buried Providing convincing evidence that women's absence from the record as creative intellectual beings is not women's fault but men's Dale Spender claims at least 150 women from the past and suggests how such erasure can be avoided in the future Given that men take what they want from women's ideas Dale Spender advocates that women withdraw their labour that they go on a knowledge strike for if women cannot control the knowledge they produce at least they can ensure that it cannot be used as evidence against them Exposing the inadequacies of much modern male scholarship the author provides the readers with the opportunity to share in her own discoveries excitement and mistakes in the process of researching and writing this book The result is that *Women of Ideas And What Men Have Done to Them* is an ambitious and provocative book which will be used as a reference for many years to come and which is also from beginning to end a stimulating read

Translating Feminism in China Zhongli Yu, 2015-06-05 This book explores translation of feminism in China through examining several Chinese translations of two typical feminist works *The Second Sex* TSS Beauvoir 1949 1952 and *The Vagina Monologues* TVM Ensler 1998 TSS exposes the cultural construction of woman while TVM reveals the pervasiveness of sexual oppression toward women The female body and female sexuality including lesbian sexuality constitute a challenge to the Chinese translators due to cultural differences and sexuality still being a sensitive topic in China This book investigates from gender and feminist perspectives how TSS and TVM have been translated and received in China with special attention to how the translators meet the challenges Since translation is the gateway to the reception of feminism an examination of the translations should reveal the response to feminism of the translator as the first reader and gatekeeper and how feminism is translated both ideologically and technically in China The translators' decisions are discussed within the social historical and political contexts *Translating Feminism in China* discusses among other issues Feminist Translation Practice Theory and Studies *Translating the Female Body and Sexuality* *Translating Lesbianism* *Censorship Sexuality and Translation* This book will be relevant to postgraduate students and researchers of translation studies It will also interest academics interested in feminism gender studies and Chinese literature and culture Zhongli Yu is Assistant Professor of Translation Studies at the University of Nottingham Ningbo China UNNC

British Women Poets and the Romantic Writing Community Stephen C. Behrendt, 2009-02-02 This study will be a key resource for scholars teachers and students in British literary studies women's studies and cultural history Stuart Curran University of Pennsylvania Internet Review of Books

Rebel Women Stephen Wilmer, John Dillon, 2014-07-04 A collection of essays by many distinguished contributors focused on the portrayal of rebel women in ancient Greek drama Ancient Greek drama provides the modern stage with a host of powerful female characters who stand in opposition to the patriarchal structures that seek to limit and define them For contemporary theatre directors their representation serves as a vehicle for examining and illuminating issues of gender power family and morality as germane today as when the plays were first written *Rebel Women* brings together essays by leading writers from across different

disciplines examining the representation of ancient Greek heroines in their original contexts and on today's stage. Divided into three sections it considers in turn international productions, Irish versions and studies of the original texts. The articles explore how such characters as Iphigenia, Medea, Antigone and Clytemnestra have been portrayed in recent times and the challenges and provocation they offer to both contemporary audiences and dramatists alike. Seamus Heaney and Athol Fugard are brought together as contributors by the inspiration that ancient Greek tragedy has offered to them both. There are offerings here on Iphigenia, Medea, Antigone, Clytemnestra, film, drama, Greece, Russia and especially Ireland. Amidst all this variety the level of interest and of scholarship are consistently high. Oliver Taplin, Professor of Classical Languages and Literature, Oxford University. *Women, Writing and Religion in England and Beyond, 650-1100* Diane Watt, 2019-12-12

Women's literary histories usually start in the later Middle Ages but recent scholarship has shown that actually women were at the heart of the emergence of the English literary tradition. *Women Writing and Religion in England and Beyond 650-1100* focuses on the period before the so-called Barking Renaissance of women's writing in the 12th century. By examining the surviving evidence of women's authorship as well as the evidence of women's engagement with literary culture more widely, Diane Watt argues that early women's writing was often lost, suppressed or deliberately destroyed. In particular she considers the different forms of male overwriting to which she ascribes the multiple connotations of destruction, preservation, control and suppression. She uses the term to describe the complex relationship between male authors and their female subjects to capture the ways in which texts can attempt to control and circumscribe female autonomy. Written by one of the leading experts in medieval women's writing, *Women Writing and Religion in England and Beyond 650-1100* examines women's literary engagement in monasteries such as Ely, Whitby, Barking and Wilton Abbey as well as letters and hagiographies from the 8th and 9th centuries. Diane Watt provides a much-needed look at women's writing in the early medieval period that is crucial to understanding women's literary history more broadly.

Feminist Space Mary Pepchinski, 2007-06-12

Feminist Space: Exhibitions and Discourses between Philadelphia and Berlin 1865-1912 investigates the relationship between gender and the production of public space, namely the exhibitions of feminine bourgeois culture that were created in Berlin between 1865 and 1912. This book demonstrates that these exhibitions gave expression to evolving bourgeois feminist discourses that proposed an expanded public sphere containing separate and equal masculine and feminine qualities. In addition, these feminine exhibitions were enriched by contact with and participation in the Woman's Buildings constructed at the 1876 Philadelphia and 1893 Chicago American world exhibitions as well as the ideals of the German applied arts movement. As the exhibitions of feminine bourgeois culture were hugely popular and financially successful events, they attracted attention and stimulated discourse and debate. This book proposes that German bourgeois feminists created unique public spaces which can be seen as contributing to the seminal architectural culture which emerged in Germany prior to 1914.
