Be the One April Smith, 2012-04-25 From the author of North of Montana The writing has the taut perfect tone of a well tuned string Scott Turow a spellbinding new thriller about ambition taken to unexpected and deadly extremes Cassidy Sanderson is a scout for the Los Angeles Dodgers the only female scout in the major leagues Hard living and hard drinking a gifted athlete herself she takes pride in successfully competing in a male world But recently she has been losing prospects on the sign and her job security is teetering on the edge When she gets a tip from a close friend and fellow scout about Alberto Cruz a young phenom in the Dominican Republic she impulsively catches a flight to Santo Domingo even though it is out of her territory and she will undoubtedly incur her boss's wrath If Alberto Cruz is as good as she's been told the trip will be worth the risk The risk starts quickly Not only has Cruz got it all the heart the guts the aptitude he may also have a bad spirit on him And he's not the only man Cassidy meets on the island who might change her life for good or ill The other is Joe Galinis a powerful financier and real estate developer one of the most provocative men she has ever met When Cassidy returns to Los Angeles she finds herself entangled in a blackmail scheme laced with otherworldly vodou and real life violence a tightening triangle of suspicion and deception that leads her to the back rooms and backstabbing of high stakes sports and finance where she is about to discover that there is a thin line between a competitor and a killer Once again April Smith gives us a novel of nonstop suspense large in scope emotionally rich and built around a central character of striking originality and substance It is an electrifying read

Excavations at the Cappadocia Gate Geoffrey D. Summers, 2021-04-30 The city on the Kerkenes Dag in the high plateau of central Turkey was a new Iron Age capital very probably Pteria Founded in the later seventh century BC the city was put to the torch in the mid sixth century and then abandoned Between 1999 and 2011 what we have called the Cappadocia Gate one of the seven city gates that pierce the 7 km of strong stone defenses was excavated in its entirety This volume documents as fully as possible the results of those excavations The location of the gate and its architecture are discussed and illustrated with a chapter devoted to its partial restoration Cultic installations within the gate structure include a built stepped monument with semi

iconic idol an aniconic stela and graffiti representing similar stones Sculpture set up at the back of the gate comprised many fragments of a life sized statue supported by a plinth bearing adorsed sphinxes carved in relief The remains of two human victims of the destruction are examined as are animal bones that perhaps provide evidence of meals consumed by builders of the gate Pottery and other finds including well preserved iron door bands are presented as is an exceptional ornament of gold and electrum A final chapter attempts to place these remarkable discoveries in a wider context The gate plan and the cultic installations and sculpture set up inside the gate appear to be entirely Phrygian Combined with evidence of Paleo Phrygian inscription and graffiti already published OIP 135 this volume sheds dramatic new and unexpected evidence for the power wealth and sophistication of an eastward expansion of Phrygia The brief existence hardly more than 100 years together with the excellent stratigraphic context of the destruction level provide an unparalleled window onto the first half of the sixth century BC on the Anatolian Plateau *Lone Wolf and Autonomous Cell Terrorism* Jeffrey Kaplan, Hélène Lööw, Leena Malkki, 2017-10-02 President Obama has declared that the greatest terrorist threat which America faces is attacks by lone wolf terrorists This volume expands the lone wolf rubric to include autonomous cells small groups of terrorists who cooperate but operate independently The challenge presented by lone wolves and autonomous cells unlike the threat emanating from established terrorist groups like Al Qaeda has proven intractable because of the difficulty of gathering intelligence on these actors or effectively countering their actions Lone wolves operate under the radar staging deadly attacks such as that at the Boston Marathon and the 2011 attacks in Norway This volume includes Theory and Policy Studies individual case studies and the technological impacts of chemical biological and nuclear weapons as well as the impact of social media in the process of recruitment and radicalization This book was originally published as a special issue of *Terrorism Political Violence* *The New York Times Index*, 2007 **Getting Somewhere** Beth Neff, 2012-01-19 Four girls dealer junkie recluse thief Sarah Jenna Lauren and Cassie may look like ordinary girls but they re not They re delinquents whose lives collide when they re sent to an experimental juvenile detention program on a farm in the middle of nowhere As the girls face up to the crimes they committed three of them will heal the wounds of their pasts and discover strengths they never dreamed they had And one driven by a deep secret of her own will seek to destroy everything they ve all worked so hard for An Excerpt from *Getting Somewhere* She thinks of herself as the surviving type Able to make things work out the way she wants them to Okay so yeah This is a little glitch in her plans But she s not going to stay Absolutely no way She ll just tell them she s not happy that it isn t working out for her The room where they put her is ridiculous Tiny No television no phone Geez they even had those at detention Well not in the rooms but still Hell if she has to she ll just walk out Nothing to stop her It will be fine It always is *Diminished Faculties* Jonathan Sterne, 2021-10-25 In *Diminished Faculties* Jonathan Sterne offers a sweeping cultural study and theorization of impairment Drawing on his personal history with thyroid cancer and a paralyzed vocal cord Sterne undertakes a political phenomenology of impairment in which experience is understood

from the standpoint of a subject that is not fully able to account for itself He conceives of impairment as a fundamental dimension of human experience examining it as both political and physical While some impairments are enshrined as normal in international standards others are treated as causes or effects of illness or disability Alongside his fractured account of experience Sterne provides a tour of alternative vocal technologies and practices a study of normal hearing loss as a cultural practice rather than a medical problem and an intertwined history and phenomenology of fatigue that follows the concept as it careens from people to materials science to industrial management to spoons Sterne demonstrates how impairment is a problem opportunity and occasion for approaching larger questions about disability subjectivity power technology and experience in new ways **Diminished Faculties** ends with a practical user's guide to impairment theory **Girl Meets Boy** Kelly Milner Halls, 2011-12-28 Twelve authors of young adult fiction collaborate on this collection of paired stories told alternately from the point of view of the boy and the girl **Canoeing Wild Rivers** Cliff Jacobson, 2015-03-01 The 30th Anniversary Edition of the classic Expedition Canoeing has long been considered the premier guide to canoeing and exploring North America's waterways This thirtieth anniversary edition expertly details everything you need to know about paddling the continent's wild rivers Outdoors writer and wilderness canoe guide Cliff Jacobson draws on his thirty plus years of river running to give you sound advice fresh new ideas and advanced techniques for canoeing in the wilderness Completely updated and revised inside you'll find dozens of full color photos how to illustrations source charts canoeing and camping tricks a chapter full of hard won advice from more than twenty five of Jacobson's fellow canoeing experts and a brand new chapter devoted to paddling desert and swamp rivers Look inside to find How to pick a crew Route and trip planning Canoeing and camping gear Navigating by map compass and GPS How to deal with dangerous bears Canoe hazards and rescue Barren land travel Preparation and skills are everything when canoeing wild rivers Take along this guide on all of your canoeing adventures **Die Bestattungsgruben in Bat** Conrad Schmidt, 2020-11-05 A comprehensive study of two Umm an Nar 2700 2000 BC burial pits from the UNESCO World Heritage site Bat in the Sultanate of Oman excavated 2010 2012 Each burial pit represents one of the largest closed finds of the Early Bronze Age in the region including beads and other items of personal adornment as well as pottery and human bones **Compton's Pictured Encyclopedia** Guy Stanton Ford, 1922
