

HOW TO USE THIS MANUAL

This service manual describes the service procedures for the TRX450S/FM and TRX450ES/FE.

Follow the Maintenance Schedule (Section 3) recommendations to ensure that the vehicle is in peak operating condition and the emission levels are within the standards set by the California Air Resources Board.

Performing the first scheduled maintenance is very important. It compensates for the initial wear that occurs during the break-in period.

Sections 1 and 3 apply to the whole vehicle. Section 2 illustrates procedures for removal/installation of components that may be required to perform service described in the following sections.

Sections 4 through 23 describe parts of the vehicle, grouped according to location.

Find the section you want on this page, then turn to the table of contents on the first page of the section.

Most sections start with assembly or system illustration, service information and troubleshooting for the section.

The subsequent pages give detailed procedure.

If you are not familiar with this vehicle, read the Technical Features in section 24.

If you do not know the source of the trouble, go to section 25, Troubleshooting.
