

English as Foreign Language Learning Experience

✓ Exclusively available on IvyPanda

Speaking and learning a foreign language can be a hard task. Of course, the learner and his/her interlocutors have to be patient. Clearly, there are loads of difficulties and the process can be very stressful for a person. I have experienced this and I can share my own ideas. First, I believed it was a great torture and knew I had to 'polish' my language to be as good as native speaker. I was too concerned with mastering the language and I missed out on more important things. After reading Amy Tan's and Rolando Niella's works, I learnt a lot about people like me and the way these experiences can be less painful and more valuable for both the learner and his/her interlocutor.

In the first place, I have to stress that speaking with people in a foreign language is often a difficult thing especially at the first stage of learning. Though, I did not have such problems as Niella, I also had numerous cases of misunderstanding. Moreover, I also had problems with personal styles, accents and speakers' pace. Interestingly, I have visited one restaurant and I loved talking to a waitress. She had a curious accent. First, it was tough to communicate with her but then I started understanding her better. Now I am even looking for people with high pace or specific accent to practice my English. Furthermore, I realized I have paid significant attention to the way I speak. Just like Niella and Tan, I focused on the choice of words or tenses, my grammar or intonation instead of simply trying to speak and share ideas.

Nevertheless, speaking correct English does not mean being able to express ideas well and sometimes it is important to let go and simply speak without focusing on possible mistakes. Of course, if I made too many mistakes, it would make communication impossible. However, I also noticed that a wrong word and tense usually do not change the meaning. Tan stresses that some of her teachers were too strict. I found it easier and less frustrating to communicate with people if I do not focus on my mistakes. When I stopped paying much attention to them while speaking, my fluency improved and my interlocutors understood me almost all the time. I guess Niella's English was extremely poor if people stopped talking to him. I also believe those people were in a hurry or in a bad mood. In my life, I had only a few experiences like that. For
