Kim Bailey, Chris

Jakicic, 2013-07-23 Leverage teamwork to integrate the CCSS into your curriculum and build on a foundational knowledge of PLCs. You'll gain a comprehensive understanding of the shifts required to implement the standards in core content areas and find valuable tips and strategies for creating strong collaborative practices. Identify the essential standards, determine learning targets, define proficiency, learn how to design rigorous assessments, and more. **From Standards to Success**

Mark R. O'Shea, 2005-07-15 In this era of accountability and high stakes testing, school leaders must find more sophisticated ways to help all students succeed. But how can districts make adequate yearly progress without a coherent system for addressing state standards? In *From Standards to Success*, education professor Mark R. O'Shea introduces the Standards Achievement Planning Cycle (SAPC), a comprehensive protocol for meeting the standards. To illustrate his multi-layered approach, O'Shea takes readers to a fictional school as it prepares to install the SAPC. We meet the superintendent who organizes the district for curriculum reform, the principal who supervises standards-based instruction, and the teachers who collaboratively plan lessons and evaluate their students' work. From teacher observation to student assessment, O'Shea offers innovative strategies to help school leaders identify and analyze which standards are most important, select appropriate curriculum materials and resources, provide instructional planning time for teachers, create a benchmark testing program, design effective professional development. Checklists at the end of each chapter highlight best practices and sample lessons show how to plan curriculum that enables students to meet state standards. The result is a thorough and sensible guide to realizing the promise of standards-based education. **From Rigorous Standards to Student Achievement**
