Firefighting Operations Leadership: The Art of Incident Management (first book) sherif khaled, Accidents have
 occurred since ancient times fires drownings and collapses are all well known incidents with a long history Firefighting
 experts through their field experience and struggles with such events sought methods to help them contain incidents quickly
 This led to the emergence of what is known as the Incident Management System The incident referred to here is the
 advanced type that can be controlled by the capabilities and resources of civil protection departments with some limited
 technical assistance such as paramedics and technicians from electricity or water companies The book discusses the stages
 of incident response beginning with the pre incident phase and its importance in gathering information about the site and
 anticipating possible incidents to help determine the required resources and potential intervention strategies It also
 examines fire behavior its development and indicators effective water management in firefighting various ventilation
 techniques and direct intervention instructions in terms of using fire hoses and effective water streams The study also
 addresses intervention strategies offensive defensive offensive defensive and purely defensive with examples for
 each It explains how to organize operations at the incident scene and how to transfer command to another leader when the
 incident escalates beyond local response capabilities 6 Finally it reaches an important point in this study the leadership of
 advanced incident response its components the role of each component and how these elements are linked through a
 proposed organizational structure for incident command
