**Armed Forces' Pay Review Body** Armed Forces' Pay Review Body,2013-05-20 This pay review of Service Medical and Dental Officer recommends a one per cent increase in basic pay to all ranks within the Medical and Dental Officer cadre a one per cent increase in General Medical Practitioner and General Dental Practitioner Trainer Pay and Associate Trainer Pay a 0.5 percentage point increase in X Factor from 14.0 per cent to 14.5 per cent in line with the main remit group that MOD reconsiders how to best include Medical and Dental Officers in the future Armed Forces Pension Scheme **Age Related**

**Pension Expenditure and Fiscal Space** Mukul G. Asher,Fauziah Zen,2016-02-22 This book explores the linkages between age related pension expenditures and the fiscal space needed to fund them as well as to organize the mix of financing methods with different risk sharing arrangements After critically assessing the existing models projecting age related expenditure in the literature the book focuses on the case studies of these inter linkages in four highly populated East Asian countries namely China Indonesia India and Japan Nearly two fifths of the global population live in these countries Therefore how these inter linkages manifest themselves and the initiatives in these countries for finding fiscal space will have an impact on how the ageing issues are addressed globally This book does several distinguishing characteristics including exploration of inter linkages between age related expenditure and fiscal space and application of country specific methods to explore these linkages rather than relying standard macroeconomic model In the process the studies also bring out the limitations of standardized model used in the literatures Scholars and policy makers interested in the subject will definitely find the book of valuable use **Research Handbook on the Arms Trade** Andrew T.H. Tan,2020-12-25 This comprehensive Research Handbook examines the key drivers of the arms trade mapping the main trends in Asia Europe the Middle East Africa and Latin America It also explores the principal defence markets internationally including the US China India Russia and the UK in greater detail *OECD Economic Surveys: Chile 2022* OECD,2022-09-23 Chile s economy recovered swiftly from the pandemic on the back of exceptionally strong policy support which eventually led to a significant overheating of the economy Inflation has risen amid buoyant private consumption further aggravated by the Russian aggression on Ukraine **Global Monitoring Report 2015/2016** World Bank;International Monetary Fund,2015-11-02 The Global Monitoring Report 2015/2016 produced by the World Bank Group in partnership with the International Monetary Fund comes at an inflection point in both the setting of global development goals and the demographic trends affecting those goals This year marks the end of the Millennium Development Goals MDGs and the launching of the Sustainable Development Goals SDGs while the World Bank Group has in parallel articulated the twin goals of sustainably ending extreme poverty and sharing prosperity This report presents the latest global poverty numbers based on the 2011 purchasing power parity PPP data and examines the pace of development progress through the lens of the evolving global development goals The special theme of this year s report examines the complex interaction between demographic change and development With the number of children approaching a

global ceiling of two billion the world's population is growing slower It is also aging faster with the share of people of working age starting a decline in 2013 But the direction and pace of these trends vary starkly across countries with sizeable demographic disparities between centers of global poverty marked by high fertility and drivers of global growth marked by rapid aging These demographic disparities are expected to deeply affect the pursuit of the post 2015 agenda accentuating existing challenges and creating new opportunities

*Ageing Labour Forces* Philip Taylor, 2008-01-01 Philip Taylor has produced an important and excellent edited collection on a topic of immediate and ongoing relevance The case studies presented in this collection are highly accessible and rich in detail and provide comprehensive and interesting analyses of ageing labour forces The book challenges myths and oft accepted statements made by policy makers and other commentators about population ageing older workers position in the labour market and in workplaces and social supports for this segment of the labour force In addition the volume demonstrates the strength of the case study methodology in helping us to better understand social structures and relations Of particular value is that the contributions are from researchers from varied disciplines across advanced industrialized countries this collection is highly valuable for policy makers employers unionists and academics and should not be ignored Vivian Shalla Labour LeTravail This book makes an important contribution to the policy debate about age and the workforce and will be valuable both to academic researchers interested in the labour market and ageing policy and to policymakers who wish to understand the diversity of national approaches to a shared agenda This book sheds new light on the differences between countries approaches to the common policy issues and highlights some of the issues which policy needs to address Taylor's overarching argument that we should be cautious about making over positive assumptions about the benefits of extending working life is timely Stephen McNair *Ageing and Society* The book is extremely valuable for policy makers labour market and welfare pensions experts and the social partners because it contains a comprehensive analysis of the legal institutional welfare and employment policy developments over the past few decades in the eight countries It offers policy guidance and examples of good practices for dealing with an ageing workforce but also showing the adverse effects of well intentioned policies and legislation Hedva Sarfati *Relations Industrielles Industrial Relations Ageing Labour Forces* is a provocative work which will appeal to academics and researchers interested in work ageing and public policy as well as labour economics SirReadaLot.org This provocative book considers the changing status of older workers the evolution of public policy on age and work and the behaviour of employers It attempts to answer the critical question in an ageing society can older workers look forward to the prospect of longer working lives with choice and security and make successful transitions to retirement *Ageing Labour Forces* challenges the current stance of many governments and observers concerning policies to extend working lives It utilises perspectives and case studies from public policy employment policy and the attitudes and behaviour of older people Philip Taylor argues that older workers have been at the forefront of industrialized society's efforts to respond to the crisis facing social welfare systems and the economic

threats associated with population ageing Their involvement has forced the restructuring of economies adjustments to social welfare systems as well as redefinitions to the actual concept of old age Containing contributions from leading researchers in a number of countries this work will appeal to academics and researchers interested in work ageing and public policy as well as labour economics HC 527 - *The Armed Forces Covenant in Action Part 5: Military Casualties* Great Britain. Parliament. House of Commons. Defence Committee,2014 Although Armed Forces personnel have a lower rate of criminal offending than the general population the rate for violent incidents is substantially higher particularly amongst those who have previously been deployed in combat roles and those who misuse alcohol The MoD needs to understand better the links between deployment alcohol misuse and violent behaviour especially domestic violence In particular there has been no research as to the incidence of domestic violence amongst Armed Forces personnel The Committee also found a shocking backlog in the processing of claims for War Pensions and for the Armed Forces Compensation Scheme The Committee is concerned that the demand for support from the Defence Recovery Capability already exceeds supply Veterans need more support navigating the overlapping bureaucracy of the health system Despite assurances from the MoD and the Department of Health the Committee is concerned that as operations in Afghanistan and Iraq fade from the public s mind and personnel move on to other lives the necessary long term support for those injured physically and psychologically will not be maintained The MoD in conjunction with the Health Service has introduced some measures to support veterans with mental health problems and amputees but other conditions also require this focus The MoD should monitor the results of its work and report the outcomes in its annual report on the Armed Forces Covenant

**Growing Pains** Mr.Lorenzo U Figlioli,Valentina Flamini,Misael Galdamez,Frederic Lambert,Mike Li,Mr.Bogdan Lissovlik,Rosalind Mowatt,Jaume Puig,Mr.Alexander D Klemm,Mauricio Soto,Mr.Saji Thomas,Christoph Freudenberg,Anna Orthofer,2018-04-05 This paper estimates the fiscal costs of population aging in Latin America and provides policy recommendations on reforms needed to make these costs manageable Although Latin American societies are still younger than most advanced economies like other emerging markets the region is already in a process of population aging that is expected to accelerate in the remainder of the century This will directly affect fiscal sustainability by putting pressure on public pension and health care systems in the region that are already more burdened than for example in emerging Asia a region with a similar demographic structure A stylized cross

country exercise drawing on demographic projections from the United Nations and methodologies developed by the IMF to derive public spending projections is used to quantify long term fiscal gaps generated by population aging in 18 Latin American countries Several aspects of current pensions and health care systems in Latin America make the region's long term fiscal positions particularly vulnerable to population aging
