Psychologists act as expert witnesses in legal cases sometimes without knowing much about the laws involved and legal professionals rely on the assessment of psychologists sometimes without knowing much about how such assessments are made. The purpose of this handbook is to provide professionals with current practical and empirically based information to guide their work in forensic settings or to better their understanding of the issues and debates in forensic psychology. Divided into four sections, the Handbook of Forensic Psychology covers basic issues, assessment, mental disorders, and forensic psychology and special topics. The basic issue chapters present a primer on law for the psychologist, a primer on psychology for attorneys, an overview of ethical issues relevant to forensic psychology, and a chapter on forensic report writing. The assessment section discusses factors and measures relevant for assessing a variety of behaviors, propensities, and capabilities, including dangerousness, violence, suicide, competency, substance abuse, PTSD, and neuropsychological evaluations, as well as discussing interviewing children and child custody evaluations. Additional chapters discuss eyewitness testimony, recovered memory, polygraphs, sexual harassment, juror selection, and issues of ethnicity in forensic psychology. Forensic Psychology Graham J. Towl, David A. Crighton, 2010-01-29. A comprehensive overview of forensic psychology as it applies to the civil and criminal justice systems in the UK, which draws on the international evidence base with contributions from leading international experts. Designed to cover the British Psychological Society training syllabus in forensic psychology, meeting the needs of postgraduate students. Chapters are each written by leading international experts and provide the latest research and evidence base practice for students. Ideal for qualified practitioners as a resource for continuing professional development. The text is written in a style designed to support and direct students and includes specific learning aids and guides to further study. Linked to an online site providing additional learning materials offering further aid to students.

Encyclopedia of Psychology and Law Brian L. Cutler, 2008. Over 350 entries provide an authoritative comprehensive A-Z list of topics in psychology and law, including criminal behaviour and treatment, juvenile offenders, eyewitness memory, forensic assessment, and diagnosis and trial processes. **Handbook of Psychology, Forensic Psychology** Alan M. Goldstein, 2003-01-07. Includes established theories and cutting edge developments. Presents the work of an international group of experts. Presents the nature, origin, implications, and a future course of major unresolved issues in the area. Clinical Neuropsychology in the Criminal Forensic Setting Robert L. Denney, James P. Sullivan, 2008-05-28. Neuropsychologists are increasingly serving as expert witnesses and consultants in legal proceedings of all kinds. Yet the criminal forensic setting is new terrain for most practitioners, and navigating it requires specialized knowledge and skills. This volume brings together leading neuropsychologists to present the legal and clinical foundations of criminal forensic practice. Authoritative yet accessible, this book is a reference for neuropsychologists who already work in the criminal arena or who are seeking to expand their practice, as well as other mental health practitioners who evaluate criminal defendants. Neuropsychology graduate students, interns, and residents will find it a highly useful text. Psychology Catalog 2005 Neil Thomson, 2004-09.
