CDM Regulations Procedures Manual Stuart D. Summerhayes, 2008-04-15 The Construction Design and Management Regulations require all those involved in construction to adopt an integrated approach to health and safety management Clients designers and contractors as well as planning supervisors must now work together to ensure that health and safety management issues are considered throughout all phases of a project Appropriate procedures must be established to ensure that documentation is clear and a structured approach is adopted by all those involved in a

project to ensure that the requirements of the regulations are complied with. This Procedures Manual provides a documentation system which has been developed by a practising planning supervisor. It addresses the full range of obligations of the client, planning supervisor, designer, principal contractor and contractors for compliance with the statutory requirements and features flow charts, checklists, model forms including service agreements, notices and health and safety plans, standard letters and proformas. In addition to providing the necessary documentary record, the Procedures Manual also functions as a control document for quality assurance purposes. The new edition has been revised to take account of the Approved Code of Practice for the Regulations.
