Hazard's Register of Pennsylvania, 1836 Assessment in Geographical Education: An International Perspective

Theresa Bourke, Reece Mills, Rod Lane, 2022-02-27 In recent years there has been increased attention paid to the importance of assessment in Geographical Education the chosen subject for this book Assessment is an important tool for collecting information about student learning and for providing timely data to inform key stakeholders including students teachers parents and policymakers To be effective assessment needs to be valid reliable and fair Validity is about ensuring that we assess what we claim we are assessing Reliability is about measuring performance and understanding in a consistent way Without validity and reliability assessment is unlikely to provide equitable opportunities for students to demonstrate what they know and can do As geography educators it is therefore important that we identify the core concepts and skills in geography that we want students to master We need a clear understanding of what the progression of learning looks like for each concept and skill so we can develop fit for purpose assessments that track and improve student learning While there is a substantial literature on evidence based assessment in secondary school contexts research exploring best practice assessment in geography is rare This is a concern given the distinctive nature of geography and the important role of assessment in the learning process This scholarly collection seeks to address this issue by connecting research in educational assessment with the domain of geography The chapters are written by leading researchers in Geographical Education from across the globe These chapters provide examples of innovation through the collective voices of geography teacher educator scholars from across Australia USA South Korea Germany Switzerland and Singapore What unifies the work in this book is that each chapter focuses on a key feature of the discipline of geography providing scholarly examples of evidence based practices for assessing student s knowledge and skills **Hazard's Register of Pennsylvania** Samuel Hazard, 1836
