Geography Caps Nov2014:

Understanding Cultural Geography Jon Anderson, 2015-03-24 *Understanding Cultural Geography* Places and Traces offers a comprehensive introduction to perhaps the most exciting and challenging area of human geography. By focusing on the notion of place as a key means through which culture and identity is grounded, the book showcases the broad range of theories, methods and practices used within the discipline. This book not only introduces the reader to the rich and complex history of cultural geography but also the key terms on which the discipline is built. From these insights, the book approaches place as an ongoing composition of traces, highlighting the dynamic and ever-changing nature of the world around us. The second edition has been fully revised and updated to incorporate recent literature and up-to-date case studies. It also adopts a new seven-section structure and benefits from the addition of two new chapters: Place and Mobility and Place and Language. Through its broad coverage of issues such as age, race, scale, nature, capitalism and the body, the book provides valuable perspectives into the cultural relationships between people and place. Anderson gives critical insights into these important issues, helping us to understand and engage with the various places that make up our lives. *Understanding Cultural Geography* is an ideal text for students being introduced to the discipline through either undergraduate or postgraduate degree courses. The book outlines how the theoretical ideas, empirical foci and methodological techniques of cultural geography illuminate and make sense of the places we inhabit and contribute to. This is a timely update on a highly successful text that incorporates a vast foundation of knowledge: an invaluable book for lecturers and students. Property, Labour and Legal Regulation Mark Findlay, 2015-10-30 In this revealing comparative study, Mark Findlay examines the problematic nexus between undervalued labour and vulnerable migration status in dis-embedded markets. It highlights the frustrations raised by timeless regulatory failure and the chronic complicity of private property arrangements in delivering unsustainable market engagement. Mark Findlay identifies the challenge for normative and functional foundations of equitable governance by repositioning regulatory principle to restore dignity to market relations. The accountability of property through wider access and inclusion: it is argued, grounds commodified occupation as a vitally valuable social bond in which workers are empowered to participate rather than suffer exploitation. The comparative analysis of the EU and ASEAN regulatory contexts reveals that it is not simply more regulatory activity but rather its reversion from market interests to human values which will advance sustainability. *Property, Labour and Legal Regulation* offers an insightful critical analysis of crucial contemporary issues facing social administrators, lawyers and policy makers working in the fields of migration, labour law and regulation. Its broad disciplinary coverage lends itself to students of law and regulation who will benefit from this unique evaluation of private property, labour relations and migration exclusivity. *Urban Heritage, Development and Sustainability* Sophia Labadi, William Logan, 2015-10-23 More than half of the world's population now live in urban areas and cities provide the setting for contemporary challenges such as population growth, mass tourism and unequal access to socio-economic

opportunities Urban Heritage Development and Sustainability examines the impact of these issues on urban heritage considering innovative approaches to managing developmental pressures and focusing on how taking an ethical inclusive and holistic approach to urban planning and heritage conservation may create a stronger basis for the sustainable growth of cities in the future This volume is a timely analysis of current theories and practises in urban heritage with particular reference to the conflict between and potential reconciliation of conservation and development goals A global range of case studies detail a number of distinct practical approaches to heritage on international national and local scales Chapters reveal the disjunctions between international frameworks and national implementation and assess how internationally agreed concepts can be misused to justify unsustainable practices or to further economic globalisation and political nationalism The exclusion of many local communities from development policies and the subsequent erosion of their cultural heritage is also discussed with the collection emphasising the importance of grass roots heritage and exploring more inclusive and culturally responsive conservation strategies Contributions from an international group of authors including practitioners as well as leading academics deliver a broad and balanced coverage of this topic Addressing the interests of both urban planners and heritage specialists Urban Heritage Development and Sustainability is an important addition to the field that will encourage further discourse

Under the Black Flag Sami Moubayed, 2015-09-29 The Islamic State movement ISIS ISIL IS burst onto the world stage in 2014 From its heartland in Syria where it arose from the chaos of the Syrian Revolt the organisation has expanded in ideology and membership and now poses a significant threat to the region if not to the wider world Moubayed a Beirut based journalist who has been analysing Syria and the region for 20 years has unrivalled access to the movement and its participants His book is the first inside account of an organisation which has dominated the headlines with a dangerous mix of barbarity and military prowess In looking at the historical background of ISIS where it came from how it evolved where it stands today and what its aims are for the future to reveal it will provide for the first time a fully fledged picture of what lies at the heart of the Islamic State

Municipal Incorporation Activity in the United States Russell

M. Smith, 2018-01-02 This book provides a comprehensive analysis of the municipal incorporation activity in the United States over the last several decades and the geographic consequences of the incorporation of new cities. It aims to explore new municipalities and to develop a better understanding and appreciation for these complex local government boundary changes. Since 1990 the United States has witnessed the incorporation of more than 400 new cities. These newly incorporated municipalities (NIMs) were established on the edges of growing metropolitan areas in beach and mountain resort destinations and largely rural counties. The incorporation of these new cities is a complex and politically charged geographic event. These new cities can contribute to metropolitan fragmentation within a region, provide important public services to growing urban areas and/or exclude unwanted populations. New cities can also result in new school boundaries, new levels of taxation and new boards and commissions with varied political powers.

The Merlion and the Ashoka Anit Mukherjee, 2015-10-28 The Merlion and the Ashoka: Singapore India Strategic and Defence Ties examines the historical evolution and future prospects of the strategic and defence ties between these two nations. India, which considers Singapore to be one of its closest partners in Southeast Asia, has offered Singapore unprecedented access to training facilities, including basing equipment on Indian soil. In turn, Singapore has a close defence dialogue at various levels with India and active military cooperation at the tactical and operational levels. How did the two countries attain such an unprecedented level of defence cooperation and what were the challenges they had to overcome? Combining perspectives from policy makers, academics and military officers, this book examines different aspects surrounding this question. While exploring the future trajectory of Singapore-India relations, it makes recommendations on how to enhance this strategic partnership. Provided by publisher.

Gentrification as a Global Strategy Abel Albet, Núria Benach, 2017-07-14 This book memorializes the work of one of Geography's leading critical thinkers and a public intellectual known world-wide: Neil Smith. It presents a rich collection of insights from leading international and interdisciplinary experts drawing on Neil Smith's ideas for inspiration and debate. This book demonstrates the relevance and usefulness.

Brasileiros em Portugal Romerito Valeriano da Silva, 2016-11-07 A história da humanidade marcada por grandes movimentos migratórios. A partir da década de 1980 muitos brasileiros emigraram para Portugal, o que levou os brasileiros a se tornarem um dos principais grupos de estrangeiros em terras lusitanas. Mas a crise em 2008 fez com que parte desses emigrantes retornasse ao Brasil. Romerito da Silva responde em sua obra por meio de uma perspectiva geográfica por que alguns escolheram retornar e outros escolheram ficar em Portugal. Entrevistando 125 pessoas, ele se aprofunda na compreensão dessa dinâmica migratória, acreditando que os resultados possam contribuir para ampliar discussões teóricas e fundamentar o desenvolvimento de políticas públicas específicas.

Land Fictions D. Asher Ghertner, Robert W. Lake, 2021-03-15 Land Fictions explores the common storylines, narratives and tales of social betterment that justify and enact land as commodity. It interrogates global patterns of property formation, the dispossessions, property markets, enact and the popular movements to halt the growing waves of evictions and land grabs. This collection brings
