

The background of the cover is a photograph of an ancient Greek vase painting. It depicts a male figure, possibly a deity or hero, standing and holding a long staff or scepter. The figure is rendered in a simple, linear style characteristic of ancient Greek vase art. The background of the painting is a light, mottled brown color.

## **Graffiti In Antiquity:**

Graffiti in Antiquity Peter Keegan, 2014-10-10 Ancient graffiti hundreds of thousands of informal ephemeral texts spanning millennia offer a patchwork of fragmentary conversations in a variety of languages spread across the Mediterranean world Cut painted inked or traced in charcoal the surviving graffiti present a layer of lived experience in the ancient world unavailable from other sources Graffiti in Antiquity reveals how and why the inhabitants of Greece and Rome men and women and free and enslaved formulated written and visual messages about themselves and the world around them as graffiti The sources drawn from 800 BCE to 600 CE are examined both within their individual historical cultural and archaeological contexts and thematically allowing for an exploration of social identity in the urban society of the ancient world An analysis of one of the most lively and engaged forms of personal communication and protest Graffiti in Antiquity introduces a new way of reading sociocultural relationships among ordinary people living in the ancient world **Ancient**

**Graffiti in Context** Jennifer Baird, Claire Taylor, 2010-10-18 Graffiti are ubiquitous within the ancient world but remain underexploited as a form of archaeological or historical evidence They include a great variety of texts and images written or drawn inside and outside buildings in public and private places on monuments in the city on objects used in daily life and on mountains in the countryside In each case they can be seen as actively engaging with their environment in a variety of ways Ancient Graffiti in Context interrogates this cultural phenomenon and by doing so brings it into the mainstream of ancient history and archaeology Focusing on different approaches to and interpretations of graffiti from a variety of sites and chronological contexts Baird and Taylor pose a series of questions not previously asked of this evidence such as What are graffiti and how can we interpret them In what ways and with whom do graffiti communicate To what extent do graffiti represent or subvert the cultural values of the society in which they occur By comparing themes across time and space and viewing graffiti in context this book provides a series of interpretative strategies for scholars and students of the ancient world As such it will be essential reading for Classical archaeologists and historians alike **Scribbling through History**

Chloé Ragazzoli, Ömür Harmansah, Chiara Salvador, Elizabeth Froom, 2018-05-31 For most people the mention of graffiti conjures up notions of subversion defacement and underground culture Yet the term was coined by classical archaeologists excavating Pompeii in the 19th century and has been embraced by modern street culture graffiti have been left on natural sites and public monuments for tens of thousands of years They mark a position in time a relation to space and a territorial claim They are also material displays of individual identity and social interaction As an effective socially accepted medium of self definition ancient graffiti may be compared to the modern use of social networks This book shows that graffiti a very ancient practice long hidden behind modern disapproval and street culture have been integral to literacy and self expression throughout history Graffiti bear witness to social events and religious practices that are difficult to track in normative and official discourses This book addresses graffiti practices in cultures ranging from ancient China and Egypt through early

modern Europe to modern Turkey in illustrated short essays by specialists It proposes a holistic approach to graffiti as a cultural practice that plays a key role in crucial aspects of human experience and how they can be understood

**Writing on the Wall** Karen B. Stern, 2018-06-19 Few direct clues exist to the everyday lives and beliefs of ordinary Jews in antiquity Prevailing perspectives on ancient Jewish life have been shaped largely by the voices of intellectual and social elites preserved in the writings of Philo and Josephus and the rabbinic texts of the Mishnah and Talmud Commissioned art architecture and formal inscriptions displayed on tombs and synagogues equally reflect the sensibilities of their influential patrons The perspectives and sentiments of nonelite Jews by contrast have mostly disappeared from the historical record Focusing on these forgotten Jews of antiquity *Writing on the Wall* takes an unprecedented look at the vernacular inscriptions and drawings they left behind and sheds new light on the richness of their quotidian lives Just like their neighbors throughout the eastern and southern Mediterranean Mesopotamia Arabia and Egypt ancient Jews scribbled and drew graffiti everywhere in and around markets hippodromes theaters pagan temples open cliffs sanctuaries and even inside burial caves and synagogues Karen Stern reveals what these markings tell us about the men and women who made them people whose lives beliefs and behaviors eluded commemoration in grand literary and architectural works Making compelling analogies with modern graffiti practices she documents the overlooked connections between Jews and their neighbors showing how popular Jewish practices of prayer mortuary commemoration commerce and civic engagement regularly crossed ethnic and religious boundaries Illustrated throughout with examples of ancient graffiti *Writing on the Wall* provides a tantalizingly intimate glimpse into the cultural worlds of forgotten populations living at the crossroads of Judaism Christianity paganism and earliest Islam

*The Popular History of Graffiti* Fiona McDonald, 2013-06-13 What is graffiti And why have we as a culture had the urge to do it since 30 000 BCE Artist Fiona McDonald explores the ways in which graffiti works to forever compel and simultaneously repel us as a society When did graffiti turn into graffiti art and why do we now pay thousands of dollars for a Banksy print when just twenty years ago seminal graffiti artists from the Bronx were thrown into jail for having the same idea Graffiti has not always been imbued with a sense of aesthetic but when and why did we suddenly decide that it is worthy of consideration and criticism just within the past few years Throughout history graffiti has served as an innately individualistic expression such as Viking graffiti on the walls of eighth century churches but it has also evolved into a visual and narrative expression of a collective group Graffiti brings to mind not only hip hop culture and urban landscapes but petroglyphs tree trunks strewn with carved hearts symbolizing love and million dollar works of art Learn about more graffiti artists and rebels such as the band Black Flag Lee Quinones and Fab 5 Freddy Dandi Zephyr Blek le Rat Nunca Keith Haring and more Illustrated with stunning full color photos of graffiti throughout time *The Popular History of Graffiti* promises to be an important and dynamic addition to graffiti literature

**The Gift in Antiquity** Michael Satlow, 2013-04-01 *The Gift in Antiquity* presents a collection of 14 original essays that apply French sociologist Marcel Mauss's notion of gift giving to the

study of antiquity Features a collection of original essays that cover such wide ranging topics as vows in the Hebrew Bible ancient Greek wedding gifts Hellenistic civic practices Latin literature Roman and Jewish burial practices and Jewish and Christian religious gifts Organizes essays around theoretical concerns rather than chronologically Generates unique insights into gift giving and reciprocity in antiquity Takes an explicitly cross cultural approach to the study of ancient history

**The Inner Lives of Ancient Houses** Jennifer A. Baird, 2014 Dura Europos on the Syrian Euphrates is one of the best preserved and most extensively excavated sites of the Roman world A Hellenistic foundation later held by the Parthians and then the Romans Dura had a Roman military garrison installed within its city walls before it was taken by the Sasanians in the mid third century The Inner Lives of Ancient Houses is the first study to consider the houses of the site as a whole The houses were excavated by a team from Yale and the French Academy of Inscriptions and Letters in the 1920s and 30s and though a wealth of archaeological and textual material was recovered most

of that relating to housing was never published Through a combination of archival information held at the Yale University Art Gallery and new fieldwork with the Mission Franco Syrienne d'Europos Doura this study re-evaluates the houses of the site integrating architecture artefacts and textual evidence and examining ancient daily life and cultural interaction as well as considering houses which were modified for use by the Roman military

### **Cultic Graffiti in the Late Antique**

**Mediterranean and Beyond** Antonio Enrico Felle, Bryan Ward-Perkins, 2021 Graffiti scratched or drawn on the walls of religious shrines provide unique unmediated evidence of how ordinary men and women many of them pilgrims invoked and sought the help of God and the saints in Late Antiquity The papers in this volume document and discuss cultic graffiti across the entire late antique Mediterranean and into Nubia and Arabia The principal focus is the Christian world but there are also papers that look back to pre-Christian practice and into the world of early Islam Presenting evidence that is often unfamiliar this is an important volume for anyone interested in the History and Archaeology of Late Antiquity In examining cultic practice we are almost always compelled to view the actions of devotees through texts written by the ecclesiastical elite often with a clear hagiographical agenda in mind cultic graffiti are evidence produced by the protagonists themselves

*Ancient History from Below* Cyril Courrier, Julio Cesar Magalhães de Oliveira, 2021-09-30 If ancient history is particularly susceptible to a top-down approach due to the nature of our evidence and its traditional exploitation by modern scholars another ancient history from below is actually possible This volume examines the possibilities and challenges involved in writing it Despite undeniable advances in recent decades our slowness to reconstruct plausible visions of almost any aspect of society beyond the top-most strata of wealth power or status as Nicholas Purcell has put it remains a persistent feature of the field Therefore this book concerns a historical field and social groups that are still today neglected by modern scholarship However writing ancient history from below means much more than taking into account the anonymous masses the subaltern classes and the non-elites Our task is also in the felicitous expression coined by Walter Benjamin to brush history against the grain to rescue the viewpoint of the subordinated the traditions of the oppressed In other words we should understand the bulk of ancient populations in light of their own experience and their own reactions to that experience But how do we do such a history What sources can we use What methods and approaches can we employ What concepts are required to this endeavour The contributions mainly engage with questions of theory and methodology but they also constitute inspiring case studies in their own right ranging from classical Greece to the late antique world This book is aimed not only at readers working on classical Greece republican and imperial Rome and late antiquity but at anyone interested in bottom-up history and social and population history in general Although the book is primarily intended for scholars it will also appeal to graduate and undergraduate students of history archaeology and classical studies
