Course Description Anatomy & Physiology is an exciting upper level science course that focuses on the structure and function of the human body. The course begins with an exploration of the cells and tissues that form the structure of the body, and how these structures make up the body systems. A&P explains how the body systems work together to maintain homeostasis, and how the body systems function in both healthy and diseased states. Heart, muscle function, and nerve function will also be covered.	Expected Materials You will be required to bring a 3 ring binder or post, a pencil, and textbook to class every day. There is also a fee amount on ordering and shipping in A&P, so a set of textbooks is highly recommended.
