QUESTION In the following question, two statements are given, followed by two conclusions numbered I and II. You have to take the two statements as true and decide if the conclusion(s) follow(s) from the statements.

STATEMENTS:

- All students who study hard pass the examination.
- Some students who do not study hard also pass the examination.

CONCLUSIONS:

- Students who do not study hard cannot pass the examination.
- Students who study hard may or may not pass the examination.

SOLUTION Statement I says that all those who study hard pass the examination. It does not say anything about those who do not study hard. Statement II says that some students who do not study hard also pass the examination. This statement contradicts conclusion I.
