Williams,2008

Negative sentiment regarding conducted energy weapons is due largely to a lack of understanding about the technology behind such weapons and a misunderstanding of those weapons' physiological effects. Media accounts that speculatively associate sudden in custody deaths with the use of conducted energy weapons only add to the confusion. TASER ELECTRONIC CONTROL DEVICES AND SUDDEN IN CUSTODY DEATH documents 310 deaths in the United States proximate to the application of TASER electronic control devices from 1983 through 2006. The study examines the phenomenon of sudden death as it relates to electromuscular disruption technology and TASER electronic control devices by constructing 213 case studies dating from 1983 through 2005 and analyzing information available from news accounts, police reports and autopsies. After reviewing the available evidence from this extensive case study, the author concludes that these conducted energy weapons are excluded as the cause of death in 182 of the 212 cases. In only two cases did the evidence tend to confirm the weapon was either a cause of death or a significant contributing factor. While arguing that the TASER electronic control devices are safe, less lethal weapons, the author also cautions that they are not completely effective. He notes that the weapons were not effective in subduing more than 60 percent of violent or aggressive subjects in the 213 case studies and he documents 131 cases of fatal police shootings and one police fatality following the failure of the weapons. The only way to determine whether the TASER electronic control devices are responsible for deaths is to separate evidence from conjecture and analyze the facts of each case. This book will be an excellent resource for law enforcement professionals, attorneys, investigators and criminal justice personnel.

Betrayal in Dallas Mark North,2013-10-01 John F Kennedy was assassinated in Dallas by Mafia contract killers hired by Louisiana mob boss Carlos Marcello. Longtime local district attorney Henry Wade, an LBJ crony who would have sole jurisdiction over the prosecution of those responsible, had been corrupted by the local Civello crime family. Lyndon B Johnson, while a US senator during the 1950s, had accepted bribes from the same mobsters so that they could avoid deportation. With incredible detail and documentation, Mark North pieces the puzzle together to reveal how in late 1961 US Attorney General Robert Kennedy and his brother John, who hated LBJ, initiated a covert Organized Crime Task Force investigation of the Civello mob in Dallas. Johnson, through Wade and local federal officials he had placed in power, learned of the plan and cooperated with the Civello mob to have JFK killed. Johnson did this in part because he had the power to control any subsequent federal investigation via FBI director J Edgar Hoover. After the
