How Does The Pre Budget Report Affect Me:

Audit of Assumptions for the 2005 Pre-budget Report Great Britain: National Audit Office,2005-12-05 This report by the National Audit Office made under sections 156 and 157 of the Finance Act 1998 examines the conventions and assumptions underlying the Treasury's fiscal projections within the Pre Budget Report 2005 Cm 6701 ISBN 0101670125 **The 2007 pre-budget report** Great Britain: Parliament: House of Commons: Treasury Committee,2007-11-26 Incorporating HCP 1031 i iii session 2006 07 The Pre Budget Report 2007 published in October 2007 Cm 7227 ISBN 9780101722728 **The 2006 pre-budget report** Great Britain: Parliament: House of Commons: Treasury Committee,2007-01-25 This report from the Treasury Committee examines the recent economic analysis and assessment of the UK economy as outlined in the 2006 pre budget report and sets out a number of conclusions and recommendations including the Committee welcomes the recent rise in the growth rate of business investment but with the caveat that the downside risk as highlighted in a previous weakness for business investment remains unexplained that several risks exist around the consumption growth forecast including the potential of house prices to fall and the increase of personal insolvency the employment rate rise is commended but a lack of migration statistics in relation to the labour market means an overall assessment is not possible although an improved forecast for economic growth in 2006 the Treasury has not forecast an improvement in the fiscal position the Government appears to be on track to meet the golden rule in the current economic cycle but will start the next economic cycle with its current budget in deficit the Committee recommends also that the Treasury in future Budgets and Pre Budget reports provide a fuller explanation of its current forecast of the start and end dates of the current economic cycle also future Budget and Pre Budget reports should provide a breakdown of reported efficiency gains by department and further to enhance transparency and enable effective scrutiny the Treasury should require departments in their departmental annual reports and Autumn Performance reports in 2007 and in later years to provide consistent and comprehensive information on progress against efficiency targets the Committee expressed dissatisfaction at the lateness and vagueness of information in relation to expenditure on education but approved the early announcement of capital spending plans for education up to 2010 11 the Committee though does welcome the Government's decision to commission and publish a range of reviews informing future economic policy including tax policy the Pre Budget report is seen as an effective instrument of fiscal consultation but this could be enhanced if Parliament and the public were given greater notice of the date of the report perhaps 4 weeks before the statement is due to be made where tax changes carry significant risk of forestalling activity or distorting market behaviour such as the unusual timing and implementation of the increases in Air Passenger Duty the Committee feels as a general rule that those increases should not come into force until the House of Commons has had an opportunity to come to a formal decision on such an increase **The 2005 Pre-budget Report** Great Britain: Parliament: House of Commons: Treasury Committee,2006-01-25 The Committee's report examines the Government's Pre Budget Report

2005 Cm 6701 ISBN 0101670125 published in December 2005 Issues discussed include the state of the economy including the UK Presidency of the G8 UK economic growth estimates for 2006 and beyond and consumer spending and public finance matters as well as issues relating to taxation and pensions Recommendations made include that the Treasury should give at least four weeks notice of the date of the Pre Budget Report in order to enable sufficient parliamentary scrutiny and if this target is not met the Treasury should give an account of the reasons why

The impact of spending cuts on science and scientific research Great Britain: Parliament: House of Commons: Science and Technology Committee,2010-03-25 The pressure to be seen to be making cuts across the public sector is threatening to undermine both the Government's good record on investment in science and the economic recovery Whilst the contribution of a strong domestic science base is widely acknowledged methodological problems with quantifying its precise value to the economy mean that it is in danger of losing out in Whitehall negotiations Scientists are under increasing pressure to demonstrate the impact of their work and there is concern that areas without immediate technology applications are being undervalued The Committee believes the Government faced a strategic choice invest in areas with the greatest potential to influence and improve other areas of spending or make cuts of little significance now but that will have a devastating effect upon British science and the economy in the years to come

Audit of Assumptions for Budget 2009 Great Britain: National Audit Office,2009 The Chancellor of the Exchequer asked the National Audit Office to audit two new assumptions underlying the Treasury's fiscal projections within the 2009 Budget HC 407 session 2008 09 ISBN 9780102959161 Firstly to assess if the 2008 Pre Budget report assumption for the trend rate of growth allowing for a downward adjustment to the trend output level of around 4 per cent for the post 2006 period together with the further downward adjustment at Budget 2009 to the trend output level of around 1 per cent is reasonable and cautious Secondly to examine whether the approach used by the Treasury to produce estimates of the fiscal aggregates adjusted for the effects of the economic cycle is reasonable

Pre-budget Report 2008 Great Britain. Parliament. House of Commons. Environmental Audit Committee,2009 This report examines firstly the Treasury's response to recession The fiscal stimulus measures intended to pull the economy out of recession represent an invaluable opportunity to transform the UK into a low carbon economy But meeting climate change and renewable energy targets will require a step change in environmental investment This year's Pre Budget Report announced a 535m package of green fiscal stimulus measures designed to tackle economic and environmental problems simultaneously This investment is welcome but the scale too small most of this funding was already committed and will be offset by reduced spending in 2010 11 Extra funding announced for the Warm Front programme will not deliver the scale and speed of change that is needed Programmes aimed at improving the energy efficiency of existing buildings should be the number one priority for green fiscal stimulus It is disappointing that the wider fiscal stimulus package contains hundreds of millions of pounds for road building and widening The Treasury should publish an assessment of the net impacts of its fiscal stimulus package on the environment The second

part of the report looks at green taxation In real terms revenue from green taxes has gone down slightly since 1998 while revenue from all taxation has increased by around 30 per cent On aviation taxes the Committee criticise the Treasury's backtracking on replacing Air Passenger Duty with a per plane charge and exhorts the Government to seek reform of the Chicago Convention so as to allow taxation of international aviation fuel On motoring taxes it calls for re examination of the merits and practicalities of a car scrappage scheme to pay people to trade in their existing older cars for newer more efficient models

The Administration of Tax Credits Great Britain: Parliament: House of Commons: Treasury Committee, 2006-06-06 administration of tax Credits Sixth report of session 2005 06 Vol 2 Oral and written Evidence

Pre-budget Report 2009 Great Britain: Parliament: House of Commons: Treasury Committee, 2010 This report acknowledges that deciding the right time for fiscal consolidation requires making a fine judgement about the resilience of the recovery It emphasises that a plan to restore the health of the public finances must deal with the structural deficit While the Treasury aims to cut the deficit from 9% of GDP to 3.6% of GDP in four years the expert witnesses who examined it all criticised the document for not providing enough information about how this will be achieved Future Budgets and PBRs should attempt to quantify the downside risks around the structural deficit forecast There will be uncertainty in these figures but they are produced as part of the Spending Review process so there appears to be no argument against their publication Similarly the Bank of England publishes forecasts showing the possible range of inflation rates and publishing information about debt interest on a similar basis would be useful The recession appears to have had substantially less impact on the labour market than might have been feared though concern remains about the level of youth unemployment Repossessions have been far lower than expected however it is recommended that the Treasury proceeds cautiously over the timing of removal of Government support in this area We do not want to see a return to the times of easy credit but the Government needs to remain aware of the risk that lending will not support renewed private sector growth as the public sector retrenches The purpose of the tax on bank bonuses is to change behaviour so that banks increase their capital rather than providing large discretionary payments to employees The next Parliament needs to examine the effectiveness of any regime introduced by the Financial Services Bill in terms both of its success in altering bank behaviour and of its effect on the competitiveness of the UK financial sector

Pre-budget 2005 Great Britain. Parliament. House of Commons. Environmental Audit Committee, 2006 The Committee reports on the progress made by the Treasury in placing environmental objectives at the heart of its fiscal policies This year's pre Budget report Cm 6701 December 2005 ISBN 0101670125 is found to be inadequate especially in the context of UK CO₂ emissions actually increasing once more No significant new measures were announced and the Committee sees a continued slowing down of the Treasury's momentum in turning rhetoric into action It believes the Treasury should redefine Air Passenger Duty APD as an environmental tax and that APD rates should more accurately reflect the carbon emissions of the flights to which they apply Charging APD on flights rather than passengers

could also act as an incentive to more efficient use of aviation fuel The Committee also recommends action on aviation fuel duty biofuels car energy efficiency steps to wean the economy off over reliance on oil stamp duty and council tax reductions for homes built or refurbished to high environmental standards Each pre Budget report should include figures on total revenue from the climate change levy aggregates levy and landfill tax Although the Treasury accepts the principle of increasing taxes on bads rather than goods its reluctance for bold reform of the tax system mystifies the Committee A Green tax Commission should be reconsidered to develop a proper communications strategy to sell the environmental programme to the public The Committee exhorts the Government to make moves on the climate change problem as waiting for universal agreement is a recipe for stasis Finally the Committee regrets the Treasury s decision to abolish the Operating and Financial Review required from large companies in that it appears to view sustainable reporting as an optional extra It hopes that the proposed new business reviews will continue to require some form of social and environmental disclosure from companies
