International Journal Of Teaching And Case Studies:

Handbook of Research on Tools for Teaching Computational Thinking in P-12 Education Kalogiannakis, Michail, Papadakis, Stamatios, 2020-06-26 While the growth of computational thinking has brought new awareness to the importance of computing education it has also created new challenges Many educational initiatives focus solely on the programming aspects such as variables loops conditionals parallelism operators and data handling divorcing computing from real world contexts and applications This decontextualization threatens to make learners believe that they do not need to learn computing as they cannot envision a future in which they will need to use it just as many see math and physics education as unnecessary The Handbook of Research on Tools for Teaching Computational Thinking in P 12 Education is a cutting edge research publication that examines the implementation of computational thinking into school curriculum in order to develop creative problem solving skills and to build a computational identity which will allow for future STEM growth Moreover the book advocates for a new approach to computing education that argues that while learning about computing young people should also have opportunities to create with computing which will have a direct impact on their lives and their communities Featuring a wide range of topics such as assessment digital teaching and educational robotics this book is ideal for academicians instructional designers teachers education professionals administrators researchers and students Ubiquitous and Pervasive Knowledge and Learning Management: Semantics, Social Networking and New Media to Their Full Potential Lytras, Miltiadis D., Naeve, Ambjorn, 2007-02-28 This book presents an alternative view to ubiquitous and pervasive knowledge architectural frameworks and methodological issues and introduces some of the major techniques and tools developed in the domain of ontology building analysis and semantic Web Provided by publisher Teaching IFRS Richard M.S. Wilson, Ralph W. Adler, 2013-09-13 The increasing pace of global conformance towards the adoption of International Financial Reporting Standards IFRS highlights the need for accounting students as well as accounting practitioners to be conversant with IFRS Teaching IFRS offers expert descriptions of and insights into the IFRS convergence process from a teaching and learning perspective Hence this book is both timely and likely to have considerable impact in providing guidance for those who teach financial reporting around the world The contents of the book come from authoritative sources and offer something distinctive to complement the existing textbooks which typically focus on the technical aspects of IFRS and their adoption Drawing upon the experiences of those who have sought to introduce IFRS related classroom innovations and the associated student outcomes achieved therefrom the book offers suggestions about how to design and deliver courses dealing with IFRS and catalogues extensive listings of IFRS related teaching resources to support those courses This book was originally published as a special issue of Accounting Education An international journal **Work-Integrated Learning Case Studies in Teacher Education** Matthew Winslade, Tony Loughland, Michelle J. Eady, 2023-01-01 This book focuses on the emerging area of partner driven work integrated learning inclusive of university or

industry stakeholder development and the integration of these two major stakeholders It explores the significant interrelationship between university and school needs in this area of research It uses a cross institutional approach and focuses on local communities that educational providers interact with to highlight and discuss the issues identified in various case studies By doing so this book aims to create a community of practice that explores work integrated learning from an integrated stakeholder perspective and develops a working model to extend existing understanding in this area through integrating the ideas explored in the various chapters
