Ng,2018-11-15 This book takes you into a common law courtroom which is in no way similar to any other courtroom where common law is practised This uniqueness is characterised in particular by the use of English as the trial language in a predominantly

Cantonese speaking society and by the presence of other bilinguals in court thus presenting specific challenges for the interpreters who work in it and at times rendering the interpretation service superfluous This study inter alia problematises judges intervention in the court proceedings Chinese witnesses testifying in English as well as English language trials heard by Chinese jurors It demonstrates how the use of chuchotage proves to be inadequate and inappropriate in the Hong Kong courtroom where interpreting in an English language trial is arguably provided to cater for the need of the linguistic majority This book is useful to interpreters language educators legal professionals forensic linguists and policy makers alike **New Trends in Healthcare Interpreting Studies** Raquel Lázaro Gutiérrez,Cristina Álvaro Aranda,2023-07-01 Interpreting studies have exponentially grown over the years propelled by the realities of multicultural societies which among other factors include constant waves of immigration and the subsequent allocation of newly arrived citizens in their host countries a process entailing public service access and provision Communicative interactions between users who do not speak the same language as public service providers have been largely studied in different settings belonging to the field Public Service Translation and Interpreting PSIT ranging from police asylum legal educational or focus of this book healthcare contexts This edited book offers a unique and updated insight into the research advances and the state of the art in healthcare interpreting Contributions cover methodological innovations together with hot topics such as changing roles gender specialized contexts training programs and ethical codes to name but a few Research Methods in Interpreting Sandra Hale,Jemina Napier,2013-09-12 This is the first book to deliver a comprehensive guide to research methods in all types of interpreting It brings together the expertise of two world recognized scholars in spoken and signed language interpreting to cover the full scope of the discipline It features questions prompts and exercises throughout to highlight key concepts provoke thought and encourage reader interaction It deals fully with research in both conference and community interpreting offering a variety of perspectives on both Core areas such as reading and analyzing research literature practical issues in research and producing research reports are all covered This book is an indispensable tool for students and researchers of Interpreting as well as professionals and interpreter trainers The Routledge Handbook of Translation Studies Carmen Millán,Francesca Bartrina,2013-03-05 The Routledge Handbook of Translation Studies provides a comprehensive state of the art account of the complex field of translation studies Written by leading specialists from around the world this volume brings together authoritative original articles on pressing issues including the current status of the field and its interdisciplinary nature the problematic definition of the object of study the various theoretical frameworks the research methodologies available The handbook also includes discussion of the most recent theoretical descriptive and applied research as well as glimpses of future directions within the field and an extensive up to date bibliography The Routledge Handbook of Translation Studies is an indispensable resource for postgraduate students of translation studies *Translating and Interpreting in Australia and New Zealand* Judy Wakabayashi,Minako O'Hagan,2021-11-29 This volume explores Australian and New Zealand experiences

of translation and interpreting T I with a special focus on the formative impact of geocultural contexts Through the critical lenses of practitioners scholars and related professionals working in and on these two countries the contributors seek a better understanding of T I practices and discourses in this richly multilingual and multicultural region Building on recent work in translation and interpreting studies that extends attention to sites outside of Europe and the Americas this volume considers the geocultural and geopolitical factors that have helped shape T I in these Pacific neighbours especially how the practices and conceptualization of T I have been closely tied with immigration Contributors examine the significant role T I plays in everyday communication across varied sectors including education health business and legal contexts as well as in crisis situations cultural and creative settings and initiatives to revitalize Indigenous languages The book also looks to the broader implications beyond the Australian and New Zealand translationscape making it of relevance to T I scholars elsewhere as well as those with an interest in Indigenous studies and minority languages *Corpora in Interpreting Studies*

Andrew K.F. Cheung,Kanglong Liu,Riccardo Moratto,2023-12-01 Cheung Liu Moratto and their contributors examine how corpora can be effectively harnessed to benefit interpreting practice and research in East Asian settings In comparison to the achievements made in the field of corpus based translation studies the use of corpora in interpreting is not comparable in terms of scope methods and agenda One of the predicaments that hampers this line of inquiry is the lack of systematic corpora to document spoken language This issue is even more pronounced when dealing with East Asian languages such as Chinese Japanese and Korean which are typologically different from European languages As language plays a pivotal role in interpreting research the use of corpora in interpreting within East Asian contexts has its own distinct characteristics as well as methodological constraints and concerns However it also generates new insights and findings that can significantly advance this research field A valuable resource for scholars of scholars focusing on corpus interpreting particularly those dealing with East Asian languages
