- You may need blood tests before your procedure. If you are on blood thinners, i.e. aspirin, Plavix, Coumadin, you may be asked to stop taking those a few days prior to your procedure. When you call to schedule your procedure, you will be given instructions. Blood tests will need to be done to make sure that no bleeding complications will occur before your procedure.

If your district or office did not schedule your appointment for you, please call (800) 285-2889 to schedule. Please listen to the instructions that are given to you. These are important to the timely completion of your interview.

If you have questions, please call
(440) 234-0438. We will be happy to
answer them for you.

Some procedures require that you do not eat prior to the procedure. When you schedule your procedure, you will be given instructions regarding what you may or may not be able to eat or drink.

These studies implicate in the regulation of a number of other major gene families. Thus, *Hsp90* has been shown to be involved in several other cellular and molecular events. *Hsp90* appears to be involved in the regulation of the cell cycle, the differentiation of muscle, and the regulation of the immune system. *Hsp90* is also involved in the regulation of the cell cycle, the differentiation of muscle, and the regulation of the immune system.

Each procedure varies in length; some last approximately 20 minutes, while others may take hours.

Propofol, which is a numbing medication, is given for all procedures. It turns and stings for a few seconds while injected. After the Propofol is given, you should not feel any pain. Let the doctor know right away if you do. You do not "go to sleep" for these procedures.

You will be required to lay flat on the x-ray table for the procedure. It is very important that you remain still for your procedure. This is for your safety and will allow the procedure to progress quickly.

A. Pfenkhauser, Registered Nurse and Radiologic Technologist, is present for each research day.

After Test Time

A specially trained and Board Certified Physician (radiologist) will interpret your images and send a report to your doctor that confirms this procedure.

If this survey reveals you have your current standard of living well below the 20% threshold, please consider the possibility of either increasing your personal or family income or decreasing your standard of living.

If you received contrast during your procedure, you will be encouraged to drink a lot of water over the next 48 hours to help flush the contrast out of your system.

Your doctor that ordered your procedure will receive a detailed report.

There may be certain restrictions after your procedure. The Radiologist, nurse and technologists will go over any special instructions with you prior to your discharge.
