Intraperitoneal Cancer Therapy Current Clinical Oncology:

Intraperitoneal Cancer Therapy C. William Helm, Robert Edwards, 2007-11-25 Intraperitoneal Cancer Therapy investigates intraperitoneal chemotherapy in a variety of complex and interesting ways The volume details major clinical trials to date including immunotherapy hyperthermic treatment of colo rectal and ovarian cancers Authors also examine regional approaches to therapy systemic therapy and the use of carboplatin and paclitaxel as the standard treatment for women with stages III and IV ovarian cancer Other chapters also investigate techniques and procedures in treatment as well as the future direction of both normothermic and hyperthermic intraperitoneal chemotherapy *Intraperitoneal Cancer Therapy* Wim P. Ceelen, Edward Levine, 2015-10-22 Intraperitoneal Cancer Therapy Principles and Practice is one of the first books to combine the latest clinical developments in the treatment of patients with peritoneal surface disease and the scientific principles that underlie the concept of intraperitoneal cancer therapy The book covers basic concepts such as anatomy physiology pharmacology *Treatment of Peritoneal Surface Malignancies* Angelo Di Giorgio, Enrico Pinto, 2015-02-14 This monograph summarizes state of the art knowledge regarding peritoneal surface malignancies with in depth description of treatment options and the results achieved to date It explores the most challenging problems on the basis of the authors very extensive clinical experience and examines the most relevant clinical trials A comprehensive summary is provided of all phase 2 studies the only available completed studies and of ongoing and future phase 3 studies Particular attention is paid to the results of integrated treatment comprising cytoreduction peritonectomy and hyperthermic intraperitoneal chemotherapy HIPEC Helpful background information is also included on the definition and clinical assessment of each clinical form The book drawing on data from the entire Italian experience as well as world literature will be an outstanding benchmark for health professionals and researchers *Molecular Pathology of Gynecologic Cancer* Antonio Giordano, Alessandro Bovicelli, Robert J. Kurman, 2007-10-05 This book focuses on putting successful molecular strategies into practice for the treatment of gynecologic cancer It approaches research into the pathology and treatment of gynecologic oncology from both clinical and experimental perspectives New insights made possible by the introduction of advanced technologies into the field are presented This new volume will be necessary reading for clinicians and experimental researchers alike *Challenges and Solutions of Oncological Hyperthermia* Andras Szasz, 2020-04-02 The next generation of oncological hyperthermia involves the medical innovation of selectively heating up the malignant cells of the body in a controlled way The easily distinguishable biophysical and physiological characteristics of cancer cells and their immediate environment are the focus of the targeted energy delivery of this treatment This heterogenic heating concept breaks with the homogeneous nature of conventional hyperthermia where an isothermally equal temperature is applied to the large surface area of a solid tumor Due to its selectivity the new concept enables the usage of a significantly lower energy making it safer less toxic and easier to use This book shows the challenges facing oncological hyperthermia and highlights clinical results

obtained in various countries It also presents discussions about the theoretical basis of the method adding some technical discussions and clarifying the most difficult points of its design The contributions dealing with clinical results use state of art conventional therapies with complementary hyperthermia and show the advantages of such a combination

Targeted Cancer Therapy Razelle Kurzrock,Maurie Markman,2008-03-07 Emerging technologies in target identification drug discovery molecular markers and imaging are rapidly changing the face of cancer This book provides a foundation of knowledge in targeted cancer therapeutics The treatment of cancer is increasingly being individualized based on an understanding of underlying biologic mechanisms Poised to change the landscape in oncology this volume provides a state of the art overview It will be valuable to practicing and academic physicians fellows residents and students as well as basic scientists interested in the cancer field

Cancer Neurology in Clinical Practice David Schiff,Santosh Kesari,Patrick C. Y. Wen,2008-07-11 Neuro oncology has evolved substantially as a clinical and research discipline over the past few decades Cancer Neurology in Clinical Practice Neurologic Complications of Cancer and its Treatment Second Edition provides clinicians from various backgrounds and levels of training with a reference to help focus the differential diagnosis treatment strategy and management plan for the cancer patient with neurologic symptoms and findings The volume begins with an overview of the field of neuro oncology and a review of the role of neuroimaging in the diagnosis of neuro oncologic disease Several chapters on interpretation and management of common neuro oncologic symptoms follow Subsequent sections contain chapters on the direct and indirect neurologic complications of cancer as well as complications of therapy The final section focuses on the spectrum and management of neurologic disease in patients with cancer of specific organs Cancer Neurology in Clinical Practice Neurologic Complications of Cancer and its Treatment Second Edition is an important new work that aims to broaden and deepen the familiarity of clinicians with the range and management of neuro oncologic diseases in order to improve the quality of care for cancer patients

Oncothermia: Principles and Practices Andras Szasz,Nora Szasz,Oliver Szasz,2010-11-23 Oncothermia is the next generation medical innovation that delivers selective controlled and deep energy for cancer treatment The basic principles for oncothermia stem from oncological hyperthermia the oldest approach to treating cancer Nevertheless hyperthermia has been wrought with significant controversy mostly stemming from shortcomings of controlled energy delivery Oncothermia has been able to overcome these insufficiencies and prove to be a controlled safe and efficacious treatment option This book is the first attempt to elucidate the theory and practice of oncothermia based on rigorous mathematical and biophysical analysis not centered on the temperature increase It is supported by numerous in vitro and in vivo findings and twenty years of clinical experience This book will help scientists researchers and medical practitioners in understanding the scientific and conceptual underpinnings of oncothermia and will add another valuable tool in the fight against cancer Professor Andras Szasz is the inventor of oncothermia and the Head of St Istvan University s Biotechnics Department in Hungary He has published over 300 papers and lectured at various

universities around the world Dr Oliver Szasz is the managing director of Oncotherm the global manufacturer and distributor of medical devices for cancer treatment used in Europe Asia since the late 1980s Dr Nora Szasz is currently a management consultant in healthcare for McKinsey Co **Textbook of Gastrointestinal Oncology** Suayib Yalcin, Philip A.

Philip, 2019-09-05 This textbook discusses core principles and practices in gastrointestinal oncology and covers a wide range of practice areas such as pathology and radiologic images epidemiology genetics staging multidisciplinary management of specific gastrointestinal cancer and pathology for each primary tumor site The comprehensive coverage makes Textbook of Gastrointestinal Oncology a useful resource for the practitioner wishing to gain a greater understanding of the principles of managing malignant gastrointestinal disease as well as medical oncology fellows surgeons radiation oncologists gastroenterologists and fellows and residents **Hyperthermia** Nagraj Huilgol, 2013-05-15 The book Hyperthermia published by InTech and edited by Dr Nagraj Huilgol of the Department of Radiation Oncology Dr Balabhai Nanavati Hospital India is comprised of 8 Open Access chapters covering a wide range of Hyperthermia related scientific research
