Place-Branding Experiences Catherine W. Ng, Titilayo Adebola, Abbe E.L. Brown,2024-12-09 This thought provoking book navigates the impact of place brands in the consumer marketplace in light of the extended protection accorded to them under intellectual property laws Interdisciplinary in scope the book explores diverse national and international approaches to strategic branding through the lenses of law marketing history and sociology Norm Antipreneurs and the Politics of Resistance to Global Normative Change Alan Bloomfield, Shirley V. Scott,2016-10-04 Over recent decades International

Relations scholars have investigated norm dynamics processes at some length with the norm entrepreneur concept having become a common reference point in the literature. The focus on norm entrepreneurs has however resulted in a bias towards investigating the agents and processes of successful normative change. This book challenges this inherent bias by explicitly focusing on those who resist normative change: norm antipreneurs. The utility of the norm antipreneur concept is explored through a series of case studies encompassing a range of issue areas and contributed by a mix of well known and emergent scholars of norm dynamics. In examining the complexity of norm resistance particular attention is paid to the nature and intent of the actors involved in norm contestation: the sites and processes of resistance; the strategies and tactics antipreneurs deploy to defend the values and interests they perceive to be threatened by the entrepreneurs; and whether it is the entrepreneurs or the antipreneurs who enjoy greater inherent advantages. This text will therefore be of interest to scholars and students of International Relations, International Law, Political Science, Sociology and History. **Learning to Teach**
