Customary Rights of Farmers in Neoliberal India Sophy K. Joseph, 2020-02-14 The Protection of Plant Varieties and Farmer's Rights Act 2001 promises to balance the intellectual property rights of plant breeders and farmers under one umbrella legislation However there remain several grey areas and the rights of farmers in reality are still tenuous Though the rights framework was foregrounded on an understanding between non governmental organizations and industry there is lack of clarity at both conceptual and procedural levels In this context Sophy K Joseph analyses the impact of legal policy reforms during the ongoing Second Green Revolution on farmers customary rights and livelihood The author discusses how the extension of private property rights to plant varieties seeds and other agrarian resources changed the demographic composition of the rural space with increased migration of cultivators to the cities The book argues that the transition from state interventionism during the First Green Revolution to state abstention in the Second Green Revolution has dramatically influenced India's conventional agrarian practices and traditions This work maps the evolutionary process of neoliberal economic and legal policies and its interference with primary concerns such as food security food sovereignty and agrarian self reliance of the country

Wind Power in China Julia Kirch Kirkegaard, 2018-11-12 Whilst China's growing economy is widely regarded as being responsible for severe environmental degradation and a high reliance on energy from fossil fuels China is emerging as a potential leader in new green energy technologies Outlining the extraordinary growth in China's wind power capacity since 2005 this book explores the deliberate creation of a whole industry and the strategy of transitioning the power sector to renewable energy by accelerated experimentation and through literally pushing the emerging wind power sector to its limits Investigating how wind power may not always be considered as sustainable in a wider Chinese developmental context the book traces the struggle China has had in getting this high technology sector to qualify as truly Chinese scientific development whilst often being opaquely at the mercy of foreign expertise technology and certification The book furthermore exposes the surprising nuances dynamics and potency of unexpected players in Chinese wind power marketisation Complex interplays are revealed between wind turbine control systems algorithms in critical software technology relationships between suppliers wind farm developers financiers the electrical grid itself the coal lobby the broader Chinese state and much more The book has

important implications far beyond wind power and contemporary China studies highlighting the much wider story of China's fragmented and experimental style of innovating upgrading and greening

Employees' Intellectual Property Rights Sanna Wolk, Kacper Szkalej, 2016-04-24 In today's knowledge based global economy most inventions are made by employed persons through their employers research and development activities However methods of establishing rights over an employee's intellectual property assets are relatively uncertain in the absence of international solutions Given that increasingly more businesses establish entities in different countries and more employees co operate across borders it becomes essential for companies to be able to establish the conditions under which ownership subsists in intellectual property created in employment relationships in various countries This comparative law publication describes and analyses employers acquisition of employees intellectual property rights first in general and then in depth This second edition of the book considers thirty four different jurisdictions worldwide The book was developed within the framework of the International Association for the Protection of Intellectual Property AIPPI a non affiliated non profit organization dedicated to improving and promoting the protection of intellectual property at both national and international levels Among the issues and topics covered by the forty nine distinguished contributors are the following different approaches in different law systems choice of law for contracts harmonizing international jurisdiction rules conditions for recognition and enforcement of foreign judgments employees rights in copyright semiconductor chips inventions designs plant varieties and utility models on a country by country basis employee remuneration right parties duty to inform and instances for disputes With its wealth of information on an increasingly important subject for practitioners in every jurisdiction this book is sure to be put to constant use by corporate lawyers and in house counsel everywhere It is also exceptionally valuable as a thorough resource for academics and researchers interested in the international harmonization of intellectual property law

[The Sustainable City](#) Steven Cohen, Guo Dong, 2021-06-15 Living sustainably is not just about preserving the wilderness or keeping nature pristine The transition to a green economy depends on cities Economic technological and cultural forces are moving people out of rural areas and into urban areas If we are to avert climate catastrophe we will need our cities to coexist with nature without destroying it Urbanization holds the key to long term sustainability reducing per capita environmental impacts while improving economic prosperity and social inclusion for

current and future generations The Sustainable City provides a broad and engaging overview of the urban systems of the twenty first century It approaches urban sustainability from the perspectives of behavioral change organizational management and public policy looking at case studies of existing legislation programs and public private partnerships that strive to align modern urban life and sustainability The book synthesizes the disparate strands of sustainable city planning in an approachable and applicable guide that highlights how these issues touch our lives on a daily basis including the transportation we take the public health systems that protect us where our energy comes from and what becomes of our food waste This second edition of The Sustainable City dives deeper into the financing of sustainable infrastructure and initiatives and puts additional emphasis on the roles that individual citizens and varied stakeholders can play It also reviews current trends in urban inequality and discusses whether a model of sustainability that embraces a multidimensional approach to development and a multistakeholder approach to decision making can foster social inclusion It features many more examples and new international case studies spanning the globe

Convictions of Conscience Brenda J. McMahon, Lisa R. Merriweather, 2019-10-01 *Convictions of Conscience* How Voices From the Margins Inform Public Actions and Educational Leadership seeks to help educational leaders to develop the competencies and capacities required to create socially just and equitable schools It is for educational leaders interested in transforming systems and decolonizing education rooted socially structurally and ideologically in hegemony This edited volume promotes the questioning of assumptions embedded in neoliberal new managerialism practices that often undergird the preparation and training of school leaders New managerialism in higher education seeks to understand the market forces in order to cater to the idiosyncratic often self promoting needs and interests of the few and seeks to respond with programs and policies aligned with those forces and interest This volume suggests that the confluence of context theory and pedagogical strategies within the field of educational leadership should inform curricular decisions in educational leadership preparation programs and such programs should be designed to prepare school leaders as both activists and advocates for marginalized students parents communities and staff *Convictions of Conscience* is a call on educational leaders who are committed to success for all students to reject new managerial approaches at all levels of educational leadership and is an invitation to expand their emphasis to concerns rooted in human context particularly identity politics Towards this end a decolonizing philosophically grounded practice of educational leadership that disrupts static relations within the structures of power is required to move toward a more socially just praxis The chapter authors seek to problematize understandings of diversity and inclusion by emphasizing the integral role of equity and social justice as critical dimensions of human relationships Additionally chapter authors intentionally interrogate the socio cultural dimensions that affect educational leaders
