Global Assessment Report on Disaster Risk Reduction 2015 United Nations. International Strategy for Disaster Reduction. Secretariat, 2015 2015 is a critical year for the future of sustainable development The 2015 Global Assessment Report on Disaster Risk Reduction highlights the connections between disaster risk and development and shows that decades of experience in managing disasters and reducing climate and disaster risk have produced a wealth of knowledge and good practice which can be applied to achieve sustainable development The reduction of poverty the improvement of health and education for all the achievement of sustainable and equitable economic growth and the protection of the health of the planet now depend on the management of disaster risks in the day to day decisions of governments companies investors civil society organizations households and individuals Strengthened disaster risk reduction is essential to making development sustainable

Developing a Framework for Supply Chain Planning in Construction Micael Thunberg, 2016-09-28 Supply chain management SCM has been stressed as a remedy to many of the underlying issues in the construction industry However the positive examples where SCM has been successfully utilised and diminished the lingering issues in construction is scarce The question is why Previous studies have stressed the importance of planning both the construction project as such but also the supply chain and the logistics As an important part of SCM supply chain planning SCP focuses on planning different aspects of the supply chain through involving different members of the supply chain in the planning process SCP in construction is scarce as the planning of the logistics in general Failing to plan the supply chain involving supply chain members in the planning and integrating the processes of planning the supply chains and the construction project can be one reason for the low numbers of successful SCM adoption in construction In improving the SCP in construction this thesis develops a SCP framework for construction that involves the main contractor subcontractors and suppliers The aim is to improve SCP collaboration and eliminate many of the common problems in construction through a SCM and SCP perspective The developed framework is based on an existing planning framework for sales and operations planning This framework is generic and synthesises planning in general It consists of identifying developing outcomes input organisation process key performance measurements and IT tools It is thus necessary to investigate what these aspects means in a construction context Four research objects will be fulfilled Objective 1 Identify common logistical problems and linkages between them Objective 2 Develop a SCP process Objective 3 Develop a SCP organisation Objective 4 Identify performance measurements

Global Assessment Report on Disaster Risk Reduction United Nations. International Strategy for Disaster Reduction. Secretariat, 2015 A comprehensive review and analysis of the natural hazards menacing humanity It also provides new and

arresting evidence on how where and why disaster risk is increasing globally Drawing on detailed studies this Global Assessment urges a radical shift in development practices and a major new emphasis on resilience and disaster planning
