**Mark Bassin, Gonzalo Pozo**

## **June 2015 Geography Pmemorandum:**

**The Drone Memos** Jameel Jaffer, 2010-01-12 A trenchant summation and analysis of the legal rationales behind the US drone policy of targeted killing of suspected terrorists including US citizens Publishers Weekly starred review In the long response to 9 11 the US government initiated a deeply controversial policy of targeted killing the extrajudicial execution of suspected terrorists and militants typically via drones A remarkable effort was made to legitimize this practice one that most human rights experts agree is illegal and that the United States has historically condemned In *The Drone Memos* civil rights lawyer Jameel Jaffer presents and assesses the legal memos and policy documents that enabled the Obama administration to put this program into action In a lucid and provocative introduction Jaffer who led the ACLU legal team that secured the release of many of the documents evaluates the drone memos in light of domestic and international law He connects the documents legal abstractions to the real world violence they allow and makes the case that we are trading core principles of democracy and human rights for the illusion of security A careful study of a secretive counterterrorism infrastructure capable of sustaining endless orderless war this book is profoundly necessary Katrina vanden Heuvel editor and publisher of *The Nation*

**Confronting Crisis and Precariousness** Stefan Schmalz, Brandon Sommer, 2019-07-24 The 2008 global financial crisis and the subsequent Eurozone crisis triggered dramatic changes in European labour relations Unemployment and precariousness increased considerably This was further exacerbated by austerity measures leading to declining minimum wages and layoffs in the public sector These structural changes varied considerably by country but collectively pose challenges to organized labour as they confront neoliberal restructuring Concurrently recent social struggles continue to develop with unemployed and precarious workers playing a major role as protest actors Focusing on the triangular relationship of precariousness trade unions and social movements this book draws on a range of exciting cases both comparative and country case studies in order to understand how the shadow of the crisis still haunts organized labour in Europe The chapters in this collection each offer a unique perspective on how the results of the crisis in Western Southern and Eastern Europe are leading to a variety of new social movements as a consequence of increased precariousness and also how trade unions are attempting to respond

**The Making of Eurasia** Moritz Pieper, 2021-09-09 *The Making of Eurasia* investigates the multi layered spectrum of China and Russia s Eurasian policies towards each other ranging from competition to cooperation as well as the role of regional actors in between The book examines the impact of and responses to the dynamic Sino Russian interaction in the wake of China s Belt and Road initiative focusing on the selected case studies of Kazakhstan Mongolia and Uzbekistan but also on inter regional implications across the Eurasian space With China s imprint on inter regional politics and ambition to make a distinctive Chinese contribution to globalization and Russia s vision of a Greater Eurasia in which Moscow stakes out a place for itself as an indispensable power other regional actors adopt policies that respond to and co shape the resulting centrifugal forces Meanwhile power shifts are underway on a global plane as the

normative divide between Russia and the West has widened and as the Sino American rivalry is intensifying The book therefore also sheds light on the effects of Eurasian power shifts on global governance in a context where global leadership is contested and in which the US and Europe are re defining their relationship not only towards a self confident China but also towards each other As such this study will provide valuable insight for students and scholars of Eurasian Asia Studies

**Devolution: The Next Five Years and Beyond** Great Britain. Parliament. House of Commons. Communities and Local Government Committee, 2016 The Government has announced a devolution revolution transferring powers and opportunities to local government through a series of devolution deals The Cities and Local Government Devolution Bill gives statutory authority to deals and enables some of the specific reforms the Government wishes to make such as introducing directly elected mayors for combined authorities This inquiry set out to examine the contents of the Bill and in particular whether Greater Manchester s deal is a model for other areas but its scope quickly widened to a review of the way in which devolution in England is proceeding The Committee has identified various aspects of the current approach that it recommends are refined and improved The Committee has found a significant lack of public consultation and engagement at all stages in the devolution process The public should be engaged in the preparation of devolution proposals insofar as possible during the negotiations and once the results of a deal have begun to make an impact and communicated to throughout the process This

is particularly the case for health devolution where the systems in place are complex changes are consequently more difficult to understand and the public's response is likely to be more emotional. The Committee also believes that the Government's approach to devolution in practice has lacked rigour as to process there are no clear measurable objectives for devolution. It suggests various ways in which proper process can be ensured.
