Journalists have covered a wide range of the issues of this last five-year period. I believe it is because of the relatively short period, including a political transition that is considered a unique event in our nation's history, creating a unique time for the historical interest of the reader. The story features a group of scientists, economists, and biologists as they enter a frontier and attempt to generate fully enlightened decisions. The reader is aware that individuals and companies, including the firm of biochemist Eric and Lynn Stein, the proprietors of a nearby scientific firm, Professor Stein's research, and others, are all part of the story, yet the story is not about the CEO's activities. Instead, it is the story of the story, not the story itself.
