testing as a sham a false idol that is ripe for manipulation and shows little evidence of leading to educational improvement Rather than setting up incentives to divert instructional time to pointless test prep he argues we need to measure what matters and measure it in multiple ways not just via standardized tests Right now we re lying to ourselves about whether our children are learning And the longer we accept that lie the more damage we do It s time to end our blind reliance on high stakes tests With The Testing Charade Daniel Koretz insists that we face the facts and change course and he gives us a blueprint for doing better U.S. Department of Agriculture's Meat Import Standards and the Effect of Imported Meat on the Domestic Livestock, Dairy, and Poultry Industries United States.
