Justice Alex Ross, 2012 **Crime and Justice, Volume 43** Michael Tonry, 2014-12-15 Violent and property crime rates in all Western countries have been falling since the early and mid 1990s after rising in the 1970s and 1980s Few people have noticed the common patterns and fewer have attempted to understand or explain them Yet the implications are essential for thinking about crime control and criminal justice policy more broadly Crime rates in Canada and the United States for example have moved in parallel for 40 years but Canada has neither increased its imprisonment rate nor adopted harsher criminal justice policies The implication is that something other than mass imprisonment zero tolerance policing and three strikes laws explains why crime rates in our time are falling The essays in this 43rd volume of Crime and Justice explore the possibilities cross nationally They document the common rises and falls in crime and look at possible explanations including changes in sensitivity to violence generally and intimate violence in particular macro level changes in self control and structural and economic developments in modern states The contributors to this volume include Marcelo Aebi Andromachi Tseloni Eric Baumer Manuel Eisner Graham Farrell Janne Kivivuori Tapio Lappi Seppä Suzy McElrath Richard Rosenfeld Rossella Selmini Nick Tilley and Kevin T Wolff **Chief Justice W.R.**

Canada He quickly revamped the level of service provided by the court to the legal profession and the public and was instrumental in both the creation of the Canadian Judicial Council and the design and creation of the new Federal Court of Canada As the first chief justice of the Federal Court he led the new court by example moulding it into the most efficient and effective court in the country despite opposition from provincial superior courts and the Supreme Court of Canada After fifteen years on the Bench he retired in 1979 at the height of his judicial career believing that this would help the Court develop He continued to work in relative obscurity at what he loved best solving legal problems but never again appeared before the courts Richard W Pound is a senior partner at Stikeman Elliott chancellor of McGill University and a member of the International Olympic Committee

Screening Sandy Hook Deanna Spingola, 2015-02-03 Most parents would never consider dispensing deadly addictive street drugs to their children but if a trusted physician writes a prescription for an FDA approved schedule 2 medication for their two year old based on some questionable mental health screening those unwary parents do not question or object Despite side effect warnings regularly revealed during TV ads parents frequently fail to take those warnings seriously perhaps presuming that the side effects are happenstance or rarely occur Over the decades because organized psychiatry represented by the American Psychiatric Association APA convened numerous consensus panels that designed hundreds of non biologically based disorders for its Diagnostic and Statistical Manual of Mental Disorders DSM especially suitable for the pill for every ill pharmaceutical industry that conceivably already had many profitable solutions for the disorders in the pre production process The consequences have been disastrous with no discernable end in sight some people taking prescription drugs or withdrawing from them have perpetrated school mall and public shootings That is in addition to thousands of suicides that the public never hears about unless the victim is a well known public figure like Robin Williams Just the military related suicide rate is 8 000 per year untold numbers of these are the result of the psych drug cocktails doled out by psychiatrists working for the VA The government is big pharma's largest customer In addition to the homicides and suicides irreversible brain damage results from drug remedies to temporary problems that might have been easily resolved through compassionate interaction and talk therapy Despite the claims that drugs were not a factor in the Sandy Hook mass murders certain circumstances provide a different picture Adam Lanza always a unique individual changed from being a geeky weird kid to being a mass murderer not of people his own age but of beautiful vulnerable children feeling secure in their classrooms in a sleepy bedroom community in Connecticut
