Pictures for Language Learning Andrew Wright, 1989-11-16 This richly illustrated book provides a valuable guide to the role of pictures and other visual materials in language teaching. It brings together a wealth of ideas on how to use pictures in a wide range of language learning situations. The first section discusses the contribution visuals can make to all the classroom settings in providing real opportunities for students to communicate whether they are working as a class in groups or in pairs. Sections B and C contain over 200 practical suggestions for picture generated language work. These make use of visual materials which are readily available to teachers anywhere or illustrations which have been kept simple so that they can be copied easily. The activities can be integrated into all stages of the language teaching process and advice is given on how to adapt the ideas to suit different teaching environments. The final section describes the process of setting up a picture library and offers guidance on where to begin looking for visuals, how to categorise pictures and different methods of storage.

Second Language Learning Before Adulthood Vanessa De Wilde, Claire Goriot, 2022-10-24 Researchers have looked into the role of individual differences in second language learning and found that differences between learners in areas such as language aptitude, language learning motivation and exposure to the language influence second language learning. Most of this research concerned adults. Far fewer studies have addressed the role of individual

differences in second language learning of young learners As second language learning programmes tend to start earlier than before and children are nowadays frequently exposed to a foreign language in social settings such as online games and social media studying the role of individual differences in young learners can contribute both to SLA theories and to evidence based L2 education This book discusses recent findings concerning the role of individual differences in language learning in young learners The chapters in the book concern different topics linked to internal individual differences such as language aptitude motivation attitude and external individual differences such as exposure and type of instruction the relative contribution of internal and external factors to language learning and the interplay between the two types of individual differences
