Kronland-Martinet, Mitsuko Aramaki, Sølvi Ystad, 2016-09-22 This book constitutes the thoroughly refereed post conference of the 11th International Symposium on Computer Music Modeling and Retrieval CMMR 2015 held in Plymouth UK in June 2015 The 30 full papers presented were carefully reviewed and selected from 126 submissions This year's post symposium edition contains peer reviewed and revised articles centered around the conference theme Music Mind and Embodiment It is divided into 6 sections devoted to various sound and technology issues with a particular emphasis on performance music generation composition analysis and information retrieval as well as relations between sound motion and gestures and human perception and culture *The NPR Listener's Encyclopedia of Classical Music* Theodore Libbey, 2006-01-01 A resource on classical music provides coverage of composers works musical terminology and performers along with recommended recordings and access to an interactive Web site that allows readers to listen to sample works techniques and performers discussed in the reference *Music, Collective Memory, Trauma, and Nostalgia in European Cinema after the Second World War* Michael Baumgartner, Ewelina Boczkowska, 2019-09-23 In the wake of World War II the arts and culture of Europe became a site where the devastating events of the 20th century were remembered and understood Exploring one of the most integral elements of the cinematic experience music the essays in this volume consider the numerous ways in which post war European cinema dealt with memory trauma and nostalgia showing how the music of these films shaped the representation of the past The contributors consider films from the United Kingdom Poland the Soviet Union France Italy Germany Sweden Austria and the Netherlands providing a diverse and well rounded understanding of film music in the context of historical memory Memory is often underrepresented within scholarly musical studies with most of these applications found in the disciplines of ethnomusicology popular music studies music cognition and psychology and music therapy Likewise trauma has mainly been studied in relation to music in only a few historical contexts while nostalgia has attracted even less academic attention In three parts this volume addresses each area of study as it relates to the music of European cinema from 1945 to 1989 applying an interdisciplinary approach to investigate how films use music to negotiate the precarious relationships we maintain with the past *Music Collective Memory Trauma and Nostalgia in European Cinema after the Second World War* offers compelling arguments as to what makes music such a powerful medium for memory trauma and nostalgia **A History of Orchestral Conducting** Elliott W. Galkin, 1988 Although the bibliography of literature about personalities in the conducting world is extensive a comprehensive scholarly study of the history of conducting has been sorely lacking Georg Sch nemann's respected study published in 1913 was brief and restricted to the procedures of time beating No work has attempted to examine the role of the orchestral conductor and to document the evolution of his art from historical technical and aesthetic perspectives Dr Elliott W Galkin musicologist conductor and critic twice winner of the Deems Taylor award for distinguished writing about music has produced such a work in *A History of Orchestral Conducting* The central historical section of the book which examines chronologically the theories and functions

of time beating and interpretative concepts of performance is preceded by discussions of rhythm development of the orchestral medium and the evolving characteristics of orchestration Conductors of unusual pivotal influence are examined in depth as is the increasingly complex psychology of the podium Critical writings since the time of Monteverdi and the birth of the orchestra are surveyed and compared Analyses of conducting as an art and craft by musicians from Berlioz to Bernstein and commentators from Mattheson Bernard Shaw and Thomas Mann to Jacques Barzun are described and discussed A fascinating collection of engravings wood cuts photographs and caricatures contributes to the richness of this work

Working Memory Tracy Packiam Alloway, Ross G. Alloway, 2013-10-28 Working memory the conscious processing of information is increasingly recognized as one of the most important aspects of intelligence This fundamental cognitive skill is deeply connected to a great variety of human experience from our childhood to our old age from our evolutionary past to our digital future In this volume leading psychologists review the latest research on working memory and consider what role it plays in development and over the lifespan It is revealed how a strong working memory is connected with success academically and acquiring expertise and a poor working memory is connected with failure addictive behavior and poor decision making The contributions also show how working memory played a role in our cognitive evolution and how the everyday things we do such as what we eat and how much we sleep can have an impact on how well it functions Finally the evidence on whether or not working memory training is beneficial is explored This volume is essential reading for students researchers and professionals with an interest in human memory and its improvement including those working in cognitive psychology cognitive neuroscience developmental psychology gerontology education health and clinical psychology
