No Great Wall Felix Boecking,2020-05-11 This book an in depth study of Nationalist tariff policy fundamentally challenges the widely accepted idea that the key to the Communist seizure of power in China lay in the incompetence of Chiang Kai shek s Nationalist government It argues instead that during the second Sino Japanese War China s international trade the Nationalist government s tariff revenues and hence its fiscal policy and state making project all collapsed Because tariffs on China s international trade produced the single greatest share of central government revenue during the Nanjing decade the political existence of the Nationalist government depended on tariff revenue Therefore Chinese economic nationalism both at the official and popular levels had to be managed carefully so as not to jeopardize the Nationalist government s income Until the outbreak of war in 1937 the Nationalists management of international trade and China s government finances was largely successful in terms of producing increasing and sustainable revenues Within the first year of war however the Nationalists lost territories producing 80 percent of tariff revenue Hence government revenue declined just as war related expenditure increased and the Nationalist government had to resort to more rapacious forms of revenue

Industrialisation for Employment and Growth in India R. Nagaraj, 2021-10-07 India initiated liberal economic reforms in 1991 to transform a slow growing state led economy into an open export oriented industrialising economy Though economic growth has accelerated industrialisation has suffered from the manufacturing sector s share and labour intensive sectors failing to improve in India s exports The government launched the Make in India initiative in 2015 aimed at raising the manufacturing sector s share in GDP to 25 percent and to create an additional 100 million jobs by 2022 Though official

estimates show an optimistic image of small scale industries they do not explain why India failed to boost industrial production as expected of the reforms Why did they fail to keep the domestic market let alone expand exports What would it take to meet the ambitious policy goals of the initiative This book attempts to address these questions It looks at a series of case studies of the small industry to obtain an in depth understanding of specific industries and locations to draw meaningful conclusions *International Books in Print ,1987*
