Vakunta: Dissent: The Highest Stage of Patriotism, 2023-06-27 Dissent The Highest Stage of Patriotism is a treatise on dissent as the acme of love for one's fatherland Arguing against the grain the author avoids smug patriotism that which manages to make everything about the homeland flawless and beautiful It is the author's conviction that the greatness of a nation resides not in citizens blind sycophancy but rather in their willingness to call into question dereliction of duty by political leadership The goal of this book is to educate global citizens on the quintessence of political vigilance **Yearbook of International Organizations 2014-2015, Volumes 1a & 1b (Set)** Union of International Associations, 2014-06-16 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events

The End of Sunless Cities Martha F. Neba-Mbandi, PhD, 2015-12-03 Today's technologically empowered youths even those stuck in poverty are the most informed and potentially the most powerful youths in human history This current power revolution presents an enormous and unprecedented opportunity for us to end global poverty sustainably by the middle of this century The financially handicapped youths of today are not looking for handouts they are looking for opportunities to pull themselves out of poverty But they need a broader educational foundation because the rapid growth in technology has reoriented the trajectory of economic growth from agro based to production based development which requires skills that cannot be acquired in elementary school Consequently in the current technologically driven global economy no nation has pulled itself out of poverty sustainably without acquiring a critical mass of at least 80% secondary school enrollment rate Yet the average secondary school enrollment rate for low income countries is 55.16% and in sub Saharan Africa the rate is 49.55% some countries have rates as low as 17.41% UNESCO Institute for Statistics 2014 In 2011 UNESCO announced that the inadequate funding of secondary school education in many low income nations constitutes the greatest obstacle to progress in global education Teach For Hope TFH is an education system designed by this author to dislodge the above obstacle universalize secondary to community college education for all empower youths with the skills that they need to enhance their entrepreneurship and employability promote access to institutional financing and facilitate youth's inclusion in the global market TFH is financed by SEPSE a self financing system that does not require perpetual financial aid or parental financing or government funding **Improving Learning in Secondary Schools** Kenneth Ndifor Tangie, 2015-09-10 Improving

Learning in Secondary Schools brings together in a succinct comprehensive and thought provoking manner several dimensions of classroom assessment feedback in one volume It is based on the principle that students need feedback on their work and conduct at school in order to be able to correct misconceptions and omissions that can render them incapable of making progress and learning in a given subject The book reports on a doctoral study that examined teachers feedback practice and its relation to student learning in secondary schools It presents a critical fine grained classification and analysis of positive neutral and negative feedback categories in teacher talk and writing which could generate a globally applicable typology and theory of classroom feedback For some time now formative assessment generated feedback has been widely recommended for classrooms thanks mainly to compelling research based evidence showing the relative merits of formative assessment types over more traditional summative assessment practices In this book it is suggested that the time has come to depart from such arguments because the mere presence of feedback in teacher talk and writing be it formative or summative is not enough to support learning Feedback like formal and informal instruction and assessment is not mediated in vacuo it is a social process taking place in a social setting conducted by on and for social actors One must also consider the context especially the linguistic and socio cultural environment in which assessment feedback and learning occur but which also acts as a barrier and facilitator to successful feedback provision and uptake This argument should constitute a starting point for reflection debate and research into the effectiveness for learning of classroom assessment feedback Therefore whilst complementing previous work on this subject this book makes significant additions to a very important aspect of school life Primary and secondary school teachers university students academics and researchers as well as educationists and policy makers in the domain of educational assessment will find in it an inseparable companion and resource tool

Stacki, Supriya Baily, 2015-04-10 While many initial education benchmarks are being met new and continuing challenges exist for adolescent girls in the developing world Discrimination violence marginalization and health related issues prevail making proper education at the middle school level crucial during this unique development time As we continue to see the expectations for girls grow education for girls must also find a new place within the evolving norms of political economic cultural and social life This volume takes a global look at the obstacles and enablers in girls education that can have lasting institutional psychological and social consequences It looks at many complex issues affecting education for adolescent girls around the world including the underlying global demands for women in the formal workforce and the universal impact of gender based violence and provides a critical framework through which researchers may explore and critique these complexities
