

Animal Farm Revision Guide

Chapter I

After lights out, all the animals gather in the big barn to hear old Major communicate his strange dream of the previous night. Before doing so, he imparts his life learnings: that the existence of animals is one of toil and drudgery and that Man is the enemy; if animals are to ever achieve better lives then they must unite against Man. A vote is held to ascertain whether wild creatures such as rats should be considered comrades; though an overwhelming majority votes that they are, there are a few in opposition.

His dream was the remembrance

Power and Control

Power means to many things:

- political power and government;
- strength, resistance and physical attributes;
- knowledge and wisdom (power to the people).

Power is not in itself a bad thing, but with great power comes great responsibility... who might mismanage this resource? How? Napoleon, who might destroy the dream of power and control that all the animals of Animal Farm had shared.

Power is not in itself a bad thing, but with great power comes great responsibility... who might mismanage this resource? How? Napoleon, who might destroy the dream of power and control that all the animals of Animal Farm had shared.

It is ironic that Napoleon gains absolute power, which was being the most absolute power.

Context

As the novel unfolds, Napoleon's rise to power mirrors that of Stalin, who stepped out of the shadow of more established powers such as Lenin (the first leader of the Soviet Union) and Khrushchev (Stalin's successor). In 1929, the Soviet Union was in a state of economic crisis, and Stalin's rise to power was a result of his ability to outmaneuver his rivals. The Soviet Union's economic crisis was a result of the failure of the New Economic Policy (NEP), which had been introduced in 1921. Stalin's rise to power was a result of his ability to outmaneuver his rivals, and his rise to power was a result of his ability to outmaneuver his rivals.
