*The Times Index*, 2013-06 Indexes the Times Sunday times and magazine Times literary supplement Times educational supplement Time educational supplement Scotland and the Times higher education supplement     **Educational Research for Social Justice** Alistair Ross, 2021-06-22 This book presents a series of analyses of educational policies largely in the UK but some also in Europe researched by a team of social scientists who share a commitment to social justice and equity in education We explore what social justice means in educational policy and practice and how it impacts on our understanding of both educational science and the public good Using a social constructivist approach the book argues that social justice requires a particular and critical analysis of the meaning of meritocracy and of the way this term turns educational policies towards treating learning as a competition in which many young people are constructed as losers We discuss how many terms in education are essentialised and have specific and different meanings for particular social groups and how this may create issues in both quantitative survey methods and in determining what is the public good We discuss social justice across a range of intersecting social characteristics including social class ethnicity and gender as they are applied across the educational policy spectrum from early years to postgraduate education We examine the ways that young people construct their identities and the implications of this for understanding the public good in educational practice We consider the responsibilities of educational researchers to acknowledge these issues and offer examples of researching with such a commitment We conclude by considering how educational policy might contribute to a socially just equitable and inclusive public good     **The Armed Forces Covenant in action?** Great Britain: Parliament: House of Commons: Defence Committee, 2013-07-18 A series of Ofsted inspections on Army Apprenticeships conducted in 2013 rated the overall effectiveness as good This was an improvement over the last inspection in 2009 rated as satisfactory now called requires improvement Some 28 per cent of Army recruits were less than 18 years of age Further information is needed on why the Army is so dependent on recruiting personnel under the age of 18 years compared to the other two Services and whether steps are being taken to reduce this dependency Of those recruited in 2012 3 5 per cent of the Army were rated at entry level 2 for literacy that of a 7 to 8 year old and 39 per cent had a literacy level of an eleven year old If as the MoD states it has to recruit personnel at whatever level of attainment is available then it should boost remedial action when recruitment entry standards are particularly low In light of changes brought about by Future Force 2020 it may be that recruiting personnel with higher levels of attainment would better meet the future needs of the Armed Forces Whilst the Committee recognises that some recruits may not be eager to take further academic exams the MoD should encourage more recruits to undertake English and Maths GCSEs which would stand them in good stead for future employment The MoD has carried out some useful pilot projects with paramedic training and should identify more potential projects to ensure that vital skills paid for by the MoD are not lost to the country     **Parliamentary Debates (Hansard).** Great Britain.
